CHAPTER I

General provisions

Article 1

Objectives

The objectives of this Agreement are to:

(a) contribute to the reduction and eradication of poverty through the establishment of a trade partnership consistent with the objective of sustainable development, the MDGs and the Cotonou Agreement;

(b) promote regional integration, economic cooperation and good governance to establish and implement an effective, predictable and transparent regional regulatory framework for trade and investment between the Parties and among the SADC EPA States;

(c) promote the gradual integration of the SADC EPA States into the world economy in conformity with their political choices and development priorities;

(d) improve the SADC EPA States' capacity in trade policy and trade-related issues;

(e) support the conditions for increasing investment and private sector initiatives and enhancing supply capacity, competitiveness and economic growth in the SADC EPA States; and

(f) strengthen the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, consistent with WTO obligations, this Agreement shall enhance commercial and economic relations, consolidate the implementation of the Protocol on Trade in the Southern African Development Community (SADC) Region, signed on 24 August 1996 ('SADC Protocol on Trade') and the SACU Agreement, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade.

Article 2

Principles

1. This Agreement is based on the Fundamental Principles, as well as the Essential and Fundamental Elements, as set out in Articles 2 and 9, respectively, of the Cotonou Agreement. This Agreement shall build on the achievements of the Cotonou Agreement, the TDCA and the previous ACP-EC agreements in regional cooperation and integration, as well as economic and trade cooperation.

2. This Agreement shall be implemented in a complementary and mutually reinforcing manner with respect to the Cotonou Agreement and the TDCA, subject to Articles 110 and 111.

3. The Parties agree to cooperate to implement this Agreement in a manner that is consistent with the development policies and regional integration programmes in which the SADC EPA States are or may be involved.

4. The Parties agree to cooperate to fulfil their commitments and obligations and to facilitate the capacity of the SADC EPA States to implement this Agreement.

Article 3

Regional integration

1. The Parties recognise that regional integration is an integral element of their partnership and a powerful instrument to achieve the objectives of this Agreement.

2. The Parties reaffirm the importance of regional and sub-regional integration among the SADC EPA States to achieve greater economic opportunities, enhanced political stability and to foster the effective integration of developing countries into the world economy.

3. The Parties support, in particular, the integration processes based on the SACU Agreement, the SADC Treaty, and the Constitutive Act of the African Union adopted on 11 July 2000, as well as the development policies and political objectives related to such processes. The Parties aim at implementing this Agreement in a mutually supportive manner with those instruments, taking into account the respective levels of development, needs, geographical realities and sustainable development strategies.

Article 4

Monitoring

1. The Parties undertake to continuously monitor the operation and impact of this Agreement through appropriate mechanisms and timing within their respective participative processes and institutions, as well as those set up under this Agreement, in order to ensure that the objectives of this Agreement are achieved, that it is properly implemented and that the benefits for their people deriving from it, in particular the most vulnerable groups, are maximised.

2. The Parties undertake to consult each other promptly over any issue concerning the implementation of this Agreement.

Article 5

Cooperation in international fora

CHAPTER II

Trade and sustainable development

Article 6

Context and objectives

1. The Parties recall the Agenda 21 on Environment and Development of 1992, the ILO Declaration on Fundamental Principles and Rights at Work of 1998, the Johannesburg Plan of Implementation on Sustainable Development of 2002, the Ministerial Declaration of the UN Economic and Social Council on Full Employment and Decent Work of 2006, the ILO Declaration on Social Justice for a Fair Globalisation of 2008 and the UN Conference on Sustainable Development of 2012 entitled 'The Future We Want'.

2. The Parties reaffirm their commitments to promote the development of international trade in such a way as to contribute to the objective of sustainable development, in its three pillars (economic development, social development, and environmental protection) for the welfare of present and future generations, and will strive to ensure that this objective is integrated and reflected at every level of their trade relationship.

3. The provisions of this Chapter shall not be subject to the provisions of PART III, with the exception of Article 7.

Article 7

Sustainable development

1. The Parties reaffirm that the objective of sustainable development is to be applied and integrated at every level of their economic partnership, in fulfilment of the overriding commitments set out in Articles 1, 2 and 9 of the Cotonou Agreement, and especially the general commitment to reducing and eventually eradicating poverty in a way that is consistent with the objectives of sustainable development.

2. The Parties understand this objective to apply in the case of this Agreement as a commitment that:

(a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective populations and of future generations; and

(b) the decision-making methods embrace the fundamental principles of ownership, participation and dialogue.

3. As a result, the Parties agree to work cooperatively towards the achievement of people-centred sustainable development.

Article 8

Multilateral environmental and labour standards and agreements

1. The Parties recognise the value of international environmental governance and agreements as a response of the international community to global or regional environmental problems as well as decent work for all as a key element of sustainable development for all countries and as a priority objective of international cooperation.

2. Taking into account the Cotonou Agreement, and in particular its Articles 49 and 50, the Parties, in the context of this Article, reaffirm their rights and their commitment to implement their obligations in respect of the Multilateral Environmental Agreements ('MEAs') and the International Labour Organisation ('ILO') conventions that they have ratified respectively.

Article 9

Right to regulate and levels of protection

1. The Parties recognise the right of each Party to establish its own levels of domestic environmental and labour protection, and to adopt or modify accordingly its relevant laws and policies, consistently with internationally recognised standards and agreements to which they are a party.

2. The Parties reaffirm the importance of protection as afforded in domestic labour and environmental laws.

3. Recognising that it is inappropriate to encourage trade or investment by weakening or reducing domestic levels of labour and environmental protection, a Party shall not derogate from, or persistently fail to effectively enforce, its environmental and labour laws to this end.

Article 10

Trade and investment favouring sustainable development

1. The Parties reconfirm their commitment to enhance the contribution of trade and investment to the goal of sustainable development in its economic, social and environmental dimensions.

2. A Party may request, through the Trade and Development Committee, consultations with the other Party regarding any matter arising under this Chapter.

3. Dialogue and cooperation on this Chapter by the Parties, through the Trade and Development Committee, may involve other relevant authorities and stakeholders.

3. In respect of paragraphs 1 and 2, the Parties may cooperate, *inter alia*, in the following areas:

(a) the trade aspects of labour or environmental policies in international fora, such as the ILO Decent Work Agenda and MEAs;

2. The Parties recognise that development cooperation is a crucial element of their Partnership and an essential factor for the achievement of the objectives of this Agreement as laid down in Article 1. Development finance cooperation for regional economic cooperation and integration, as provided for in the Cotonou Agreement, shall be carried out to support and promote the efforts of the SADC EPA States to achieve the objectives and to maximise the expected benefits of this Agreement. Areas of cooperation and technical assistance are set out in this Agreement, as appropriate. Cooperation shall be implemented according to the modalities provided for in this Article. Such modalities shall be kept under ongoing review and shall be revised as necessary in accordance with the provisions of Article 116.

3. The EU ([1]) financing pertaining to development cooperation between the SADC EPA States and the EU supporting the implementation of this Agreement shall be carried out within the framework of the rules and relevant procedures provided for by the Cotonou Agreement, in particular the programming procedures of the European Development Fund, and within the framework of the relevant instruments financed by the General Budget of the Union. In this context, supporting the implementation of this Agreement shall be a priority.

4. The Member States of the European Union collectively undertake to support, by means of their respective development policies and instruments, development cooperation activities for regional economic cooperation and integration and for the implementation of this Agreement in the SADC EPA States and at regional level, in conformity with the principles of complementarity and aid effectiveness such as those contained in the Paris Declaration on Aid Effectiveness of 2005 and the Accra Agenda for Action of 2008.

([1]) The term 'EU' used throughout this Agreement is defined in Article 104.

5. The Parties recognise that adequate resources will be required for the implementation of this Agreement and the fullest achievement of its benefits. In this respect, the Parties shall cooperate to enable the SADC EPA States to access other financial instruments as well as facilitate other donors willing to further support the efforts of the SADC EPA States in achieving the objectives of this Agreement.

6. The Parties agree that a regional development financing mechanism such as an EPA fund would provide a useful instrument for efficiently channelling development financial resources and for implementing EPA accompanying measures. The EU agrees to support the efforts of the region to set up such a mechanism. The EU will contribute to the fund following a satisfactory audit.

Article 13

Cooperation priorities

1. For the purpose of implementing this Agreement and taking into account the development policies of the SADC EPA States, the Parties agree that the areas listed in this Article and in Article 14 are priority areas for trade and economic cooperation.

2. Cooperation in trade in goods shall aim at enhancing trade in goods and the SADC EPA States capacity to trade, including by phasing out tariffs and customs duties in line with liberalisation commitments laid down in this Agreement, by properly implementing rules of origin, trade defence instruments, non-tariff measures, sanitary and phytosanitary ('SPS') standards, and technical barriers to trade ('TBT'), by addressing non-tariff measures and by promoting customs cooperation and trade facilitation.

3. Cooperation in supply-side competitiveness shall aim at increasing the competitiveness of the SADC EPA States and remove supply side constraints at national, institutional and, in particular, at company level. This cooperation includes, amongst others, fields such as production, technology development and innovation, marketing, financing, distribution, transport, diversification of economic base, as well as development of the private sector, improvement of the trade and business environment and support to small and medium enterprises in the fields of agriculture, fisheries, industry and services.

4. Cooperation in business enhancing infrastructure shall aim at developing a competitive business enhancing environment in areas such as information and communication technology, transport and energy.

5. The Parties agree to cooperate to develop and enhance trade in services as provided for in Article 73.

6. The Parties agree to cooperate, to develop and enhance trade-related issues as provided for in Articles 8 to 11, 16 to 19, 73 and 74.

7. Cooperation in trade data shall aim at improving the capacity of the SADC EPA States in the area of trade data capture, analysis and dissemination.

8. Cooperation for EPA institutional capacity building shall aim at supporting institutional structures for EPA implementation management, capacity building for trade negotiations and for trade policy in cooperation with the relevant institutional mechanisms established under the SADC Treaty and SACU Agreement or in the respective SADC EPA States.

Article 14

Cooperation on fiscal adjustment

1. The Parties recognise that the phasing out or reduction of customs duties laid down in this Agreement may affect the fiscal revenues of the SADC EPA States and agree to cooperate on this matter.

2. The Parties agree to cooperate, in accordance with Article 12, in particular on:

(a) support to fiscal reforms; and

(b) support measures complementary to fiscal reforms for the mitigation of the net fiscal impact of this Agreement to be determined in accordance with a jointly agreed mechanism.

3. The Parties recognise that the impact of tariff reduction will particularly affect Lesotho's fiscal revenues and agree to pay particular attention to Lesotho's situation in the application of Article 12.

Article 15

Types of interventions

Development cooperation under this Agreement may include, but is not limited to, the following interventions related to this Agreement:

(a) policy development;

(h) operational support including equipment, materials and related works.

Article 16

Cooperation on protection of intellectual property rights

1. The Parties reaffirm their commitments under Article 46 of the Cotonou Agreement and their rights, obligations and flexibilities as set out in the Agreement on Trade-related Aspects of Intellectual Property, contained in Annex IC to the Agreement establishing the World Trade Organisation ('TRIPS Agreement').

2. The Parties agree to grant and ensure adequate, effective and non-discriminatory protection of intellectual property rights ('IPRs'), and provide for measures for the enforcement of such rights against infringement thereof, in accordance with the provisions of the international agreements to which they are a party.

3. The Parties may cooperate in matters related to Geographical Indications ('GIs') in line with the provisions of Section 3 (Articles 22 to 24) of the TRIPS Agreement. The Parties recognise the importance of GIs and origin-linked products for sustainable agriculture and rural development.

4. The Parties agree that it is important to respond to reasonable requests to provide information and clarification to each other on GI and other IPR related matters. Without prejudice to the generality of such cooperation, the Parties may, by mutual agreement, involve international and regional organisations with expertise in the areas of GIs.

[1] For the purpose of this Article, 'capacity building' may include in particular training, institutional development, organisational development (structures and procedures), operational support and inter-institutional communication and cooperation procedures.

5. The Parties consider traditional knowledge as an important area and may cooperate on it in future.

6. The Parties may consider entering into negotiations on the protection of IPRs in future, and the SADC EPA States have as their ambition, and will endeavour, to negotiate as a collective. Should negotiations be launched, the EU will consider including provisions on cooperation and special and differential treatment.

7. If a Party that is not a party to a future agreement on protection of IPRs negotiated in accordance with paragraph 6 wishes to join, it may negotiate the terms of its entry to that agreement.

8. If any agreement emanating from negotiations envisaged in paragraphs 6 and 7 were to result in outcomes that prove to be incompatible with the future development of a SADC regional IPRs framework, Parties shall jointly endeavour to adjust this Agreement to bring it in line with that regional framework while ensuring a balance of benefits.

Article 17

Cooperation on public procurement

1. The Parties recognise the importance of transparent public procurement to promote economic development and industrialisation. The Parties agree on the importance of cooperation to enhance the mutual understanding of their respective public procurement systems. The Parties reaffirm their commitment to transparent and predictable public procurement systems in accordance with national laws.

2. The Parties recognise the importance of continuing to publish their laws, or otherwise make publicly available their laws, regulations and administrative rulings of general application and any modifications thereof, in an officially designated electronic or paper form that is widely disseminated and remains readily accessible to the public. The Parties agree that it is important to respond to reasonable requests to provide information and clarification to each other on above-mentioned matters.

3. The Parties may consider entering into negotiations on public procurement in future, and the SADC EPA States have as their ambition, and will endeavour, to negotiate as a collective. Should negotiations be launched, the EU agrees to include provisions on cooperation and special and differential treatment.

4. If a Party that is not a party of a future agreement on public procurement wishes to join, it may negotiate the terms of its entry to that agreement.

5. If any agreement emanating from negotiations envisaged in paragraphs 3 and 4 were to result in outcomes that prove to be incompatible with the future development of a SADC regional public procurement framework, the Parties shall jointly endeavour to adjust this Agreement to bring it in line with the regional framework while ensuring a balance of benefits.

Article 18

Cooperation on competition

1. The Parties recognise that certain business practices, such as anti-competitive agreements or concerted practices and abuses of dominant positions, may restrict trade between the Parties and thereby undermine the fulfilment of the objectives of this Agreement.

2. The Parties agree to cooperate on competition matters in accordance with Article 13(6).

3. The Parties may consider entering into negotiations on competition in future, and the SADC EPA States have as their ambition, and will endeavour, to negotiate as a collective. Should negotiations be launched, the EU agrees to include provisions on cooperation and special and differential treatment.

4. If a Party that is not a party of a future agreement on competition wishes to join, it may negotiate the terms of its entry to that agreement.

5. If any agreement emanating from negotiations envisaged in paragraphs 3 and 4 were to result in outcomes that prove to be incompatible with the future development of a SADC regional competition framework, the Parties shall jointly endeavour to adjust this Agreement to bring it in line with the regional framework while ensuring a balance of benefits.

Article 19

Cooperation on tax governance

The Parties recognise the importance of cooperation on the principles of good governance in the area of taxation through the relevant authorities.

PART II

TRADE AND TRADE-RELATED MATTERS

CHAPTER I

Trade in goods

Article 20

Free trade area

1. This Agreement establishes a free trade area between the Parties, in conformity with the General Agreement on Tariffs and Trade ('GATT 1994'), and in particular Article XXIV thereof.

2. This Agreement shall respect the principle of asymmetry, commensurate to the specific needs and capacity constraints of the SADC EPA States, in terms of levels and timing for commitments under this Agreement.

Article 21

Scope

The provisions of this Chapter shall apply to trade in goods between the Parties ([1]).

Article 22

Rules of origin

The tariff preferences provided for in this Agreement shall be applied to goods qualifying under the rules of origin laid down in Protocol 1.

([1]) Except where expressly provided, the terms 'goods' and 'product' shall have the same meaning.

Article 23

Customs duty

1. A customs duty shall include any duty or charge of any kind imposed on or in connection with the importation of goods, including any form of surtax or surcharge, but shall not include any:

(a) internal taxes or other internal charges imposed in accordance with Article 40; or

(b) duties imposed in accordance with Chapter II of PART II; or

(c) fees or other charges imposed in accordance with Article 27.

2. For all products subject to liberalisation, no new customs duties shall be introduced, nor shall those already applied be increased in trade between the Parties as from the entry into force of this Agreement, with the exception of:

(a) paragraph 7;

(b) paragraph 9;

(c) paragraph 7 of Section A of PART 1 of ANNEX I; and

(d) paragraph 8 of Section A of PART 1 of ANNEX II.

3. Except as otherwise provided for in this Agreement, for each product the basic duty to which the tariff reduction commitments set out in this Agreement apply, shall be the Most-Favoured-Nation ('MFN') rate of duty applied at the date of entry into force of this Agreement.

4. In cases where the process of tariff reduction does not start at the entry into force of this Agreement, the basic duty to which the tariff reduction commitments set out in this Agreement apply shall be either the rate of duty referred to in paragraph 3, or the MFN rate of duty applied on the starting date of the relevant tariff reduction schedule, whichever is the lower.

5. At the date of entry into force of this Agreement, the EU shall notify its list of basic duties, to which the tariff reduction commitments set out in this Agreement apply, to the SACU Secretariat and the Ministry of Industry and Trade of Mozambique. At the date of entry into force of this Agreement, SACU and Mozambique shall notify their respective lists of basic duties, to which the tariff reduction commitments set out in this Agreement apply, to the European Commission. After notification, as provided for in this paragraph, each party shall make public each of these lists according to their own internal procedures and within one month after the exchange of the notifications. The Trade and Development Committee shall, at its first meeting after notification and publication, adopt the lists of basic duties communicated by the Parties or SACU, as the case may be. The duties listed in the Schedule of the EU included in PART II of ANNEX I and in the Schedule of Mozambique included in PART II of ANNEX III serve an indicative purpose and do not constitute basic duties within the meaning of paragraph 3.

6. The reduced duties calculated in accordance with the tariff reduction schedules contained in this Agreement shall be applied rounded to the first decimal place or, in case of specific duties, to the second decimal place.

7. For those tariff preferences that are expressed as a percentage of the applied MFN rate of duty, if at any moment after the date of entry into force of this Agreement, a Party increases or reduces its applied MFN rate of duty, the rate of duty applied in relation to the other Party shall simultaneously be increased or reduced as long as the margin of preference in accordance with the Party's Schedule is maintained.

8. For those tariff preferences that are wholly expressed as a fixed rate of duty in this Agreement, if at any moment after the date of entry into force of this Agreement, a Party reduces its applied MFN rate of duty, that reduced rate of duty shall apply in relation to the other Party if and for as long as it is lower than the customs duty fixed rate calculated in accordance with that Party's Schedule.

9. The provisions of this Article shall not apply to those products excluded from tariff reduction commitments that are denoted by staging category 'X' in each Party's Schedule listed in ANNEX I, II and III respectively.

Article 24

Customs duties of the EU on products originating in the SADC EPA States

1. Products originating in Botswana, Lesotho, Mozambique, Namibia and Swaziland shall be imported into the EU in accordance with the duty-free quota-free treatment set out for those countries in ANNEX I.

2. Products originating in South Africa shall be imported into the EU in accordance with the treatment set out for South Africa in ANNEX I.

Article 25

Customs duties of the SADC EPA States on products originating in the EU

1. Products originating in the EU shall be imported into SACU in accordance with the treatment set out in ANNEX II.

2. Products originating in the EU shall be imported into Mozambique in accordance with the treatment set out in ANNEX III.

Article 26

Export duties or taxes

1. No new customs duties or taxes imposed on or in connection with the exportation of goods shall be introduced, nor shall those already applied be increased, in the trade between the Parties from the date of entry into force of this Agreement, except as otherwise provided for in this Article.

2. In exceptional circumstances, where justified for specific revenue needs, or where necessary for the protection of infant industries or the environment, or where essential for the prevention or relief of critical general or local shortages of foodstuffs or other products essential to ensure food security, Botswana, Lesotho, Namibia, Mozambique and Swaziland may introduce, after consultation with the EU, temporary customs duties or taxes imposed on or in connection with the exportation of goods, on a limited number of additional products.

3. In exceptional circumstances, where the SADC EPA States can justify industrial development needs, those SADC EPA States may introduce temporary customs duties or taxes imposed on or in connection with the exportation of a limited number of products to the EU. A SADC EPA State wishing to introduce such temporary custom duties or taxes shall notify the EU of such a duty, providing all relevant information and motivation and shall consult with the EU if the EU so requests. Such temporary duties or taxes shall only be applied on a total number of eight (8) products, as defined at an HS6 tariff line level, or in case of 'ores and concentrates' at an HS4 tariff line level, per SADC EPA State at any given time and shall not be applied for a period exceeding twelve (12) years in total. This period can be extended or reinstated for the same product in agreement with the EU.

4. The following conditions shall apply to paragraph 3 but not to paragraph 2:

(a) the SADC EPA State shall for the first six (6) years from the date of introduction of an export tax or duty exempt from the application of that tax or duty exports to the EU of an annual amount equal to the average volume of exports to the EU of such product over the three (3) years preceding the date of introduction of the tax or duty. The SADC EPA State shall from the seventh year following the introduction of the said tax or duty until its expiry pursuant to paragraph 3, exempt from the application of the duty or tax, exports to the EU on an annual amount equal to 50 per cent of the average volume of exports to the EU of such product over the three (3) years preceding the date of introduction of the tax or duty; and

(b) export duties or taxes shall not exceed 10 per cent of the ad valorem export value of the product.

5. Any more favourable treatment consisting in or in relation to customs duties or taxes applied by the SADC EPA States to exports of any product destined for a major trading economy shall, from the entry into force of this Agreement, be accorded to the like product destined for the territory of the EU. For the purpose of this Article, 'major trading economy' is defined under Article 28(6).

6. Whenever a SADC EPA State has reasonable doubts as to whether a consignment of a product to which export duties shall not apply by virtue of paragraphs 1, 3 and 4 has been re-exported from, or re-routed without reaching, the EU to one or more third countries, that SADC EPA State may raise this matter at the Trade and Development Committee.

7. The Trade and Development Committee shall examine the matter within ninety (90) days. After the examination, if the Trade and Development Committee takes no decision, the customs authorities of the SADC EPA State concerned may request the Trade and Development Committee to decide that the importer of the product concerned into the EU make a declaration that the imported product will be processed in the EU and will not be re-exported to third countries.

8. If, after a system using such declarations has been in operation for at least ninety (90) days, a SADC EPA State continues to have reasonable doubts as to whether a consignment of a product to which export duties shall not apply by virtue of paragraphs 1, 3 and 4 is re-exported from, or re-routed without reaching, the EU to one or more third countries, that SADC EPA State may inform the Trade and Development Committee of the grounds of its concerns.

9. Having followed these steps, should no solution be found within thirty (30) days, the SADC EPA State concerned may impose effective measures to prevent such circumvention provided that these measures are the least trade-restrictive and exclude operators who have proven not to be involved in the process of circumvention. The retroactive reinstatement of export duties on the consignment that has been re-exported from the EU to one or more third countries may offer an alternate option.

10. The Parties agree to review the provisions of this Article in the Joint SADC EPA States — EU Council ('Joint Council') no later than three (3) years after the entry into force of this Agreement, taking fully into account their impact on development and diversification of the SADC EPA States' economies.

Article 27

Fees and charges

1. All fees and charges of whatever character, other than import and export duties and other than taxes within the scope of Article 40, imposed on or in connection with importation or exportation, shall not exceed the cost of services rendered and shall not represent an indirect protection to domestic products or a taxation of imports or exports for fiscal purposes.

2. Without prejudice to Article 30, no Party shall impose substantial penalties for minor breaches of customs regulations or procedural requirements. In particular, no penalty in respect of any omission or mistake in customs documentation which is easily rectifiable and obviously made without fraudulent intent or gross negligence shall be greater than necessary to serve merely as a warning.

3. The provisions of this Article shall extend to fees and charges, imposed by governmental authorities in connection with importation and exportation, including those relating to:

(a) consular transactions, such as consular invoices and certificates;

(b) quantitative restrictions;

(c) licensing;

(d) exchange control;

(e) statistical services;

(f) documents, documentation and certification;

(g) analysis and inspection; and

(h) quarantine, sanitation and fumigation.

4. Fees and charges shall not be imposed for consular services.

Article 28

More favourable treatment resulting from free trade agreements

1. With respect to customs duties as defined in Articles 23(1) and 26(1) and fees and other charges as defined in Article 27, the EU shall extend to the SADC EPA States any more favourable treatment applicable as a result of the EU becoming party to a preferential trade agreement with third parties after the signature of this Agreement.

2. With respect to customs duties as defined in Articles 23(1) and 26(1) and fees and other charges as defined in Article 27, the SADC EPA States shall, upon request of the EU, extend to the EU any more favourable treatment applicable as a result of the SADC EPA States, individually or collectively as the case may be, becoming party to a preferential trade agreement with any major trading economy after the signature of this Agreement.

3. By derogation from paragraph 2, the SADC EPA States shall not extend to the EU the treatment applicable as a result of the SADC EPA States, individually or collectively as the case may be, becoming party to a preferential trade agreement with countries of the African, Caribbean and Pacific group or other African countries or regions.

4. By derogation from paragraph 2, where a SADC EPA State demonstrates that as a result of a preferential trade agreement it has entered into with a major trading economy, it receives substantially more favourable treatment overall than that offered by the EU, the Parties shall consult and jointly decide how best to implement the provisions of paragraph 2.

5. The provisions of this Article shall not be construed so as to oblige the EU or any SADC EPA State to extend reciprocally any preferential treatment applicable as a result of the EU or any SADC EPA State being party to a preferential trade agreement with third parties on the date of signature of this Agreement.

6. For the purposes of this Article, 'major trading economy' means any developed country, or any country accounting for a share of world merchandise exports above 1 per cent in the year before the entry into force of the agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through an economic integration agreement accounting collectively for a share of world merchandise exports above 1,5 per cent in the year before the entry into force of the agreement referred to in paragraph 2.

7. By derogation from paragraph 1, where the EU becomes party to a preferential trade agreement with a third party after the signature of this Agreement and such a preferential trade agreement provides for more favourable treatment to the third party than that granted by the EU to South Africa pursuant to this Agreement, the EU and South Africa shall enter into consultations with a view to deciding whether and how to extend the more favourable treatment contained in the preferential trade agreement to South Africa. The Joint Council may adopt proposals to amend the provisions of this Agreement in accordance with Article 117.

8. By derogation from paragraph 2, where SACU or a SADC EPA LDC becomes party to a preferential trade agreement with a major trading economy and such a preferential trade agreement provides for more favourable treatment granted by SACU or the SADC EPA LDC concerned to the major trading economy than to the EU pursuant to this Agreement, SACU or the respective SADC EPA LDC and the EU shall enter into consultations with a view to deciding whether and how to extend the more favourable treatment contained in the preferential trade agreement to the EU. The Joint Council may adopt proposals to amend the provisions of this Agreement in accordance with Article 117.

Article 29

Free circulation

1. Customs duties shall be levied only once for goods originating in the EU or in the SADC EPA States when imported into the territory of the EU or the SADC EPA States as the case may be.

2. Any duty paid upon importation in a SADC EPA State which is also a SACU Member State shall be refunded fully when the goods are re-exported from the customs territory of that SADC EPA State of first importation to a SADC EPA State which is not also a SACU Member State. Such products shall then be subject to the duty in the country of consumption. Pending agreement by the SADC EPA States on the procedures for this paragraph, the operation of this paragraph shall be in accordance with applicable customs legislation and procedures.

3. The Parties agree to cooperate with a view to facilitating the circulation of goods and simplifying customs procedures, within the SADC EPA States, in particular as provided for in Article 13(2).

Article 30

Special provisions on administrative cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Chapter and underline their commitment to combat irregularities and fraud in customs and related matters.

2. The Parties also agree to cooperate in ensuring that the necessary institutional structures enable the responsible authorities to effectively respond to requests for assistance in a timely manner.

3. For the purpose of this Article, and without prejudice to Article 9 of Protocol 2, a failure to provide administrative cooperation shall mean, *inter alia*:

(a) repeated failure to respect the obligations to verify the originating status of the product or products concerned as provided for in Article 38 of Protocol 1;

(b) repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin as provided for in Article 38 of Protocol 1;

(c) repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question as provided for in Article 7 of Protocol 2.

4. For the purpose of this Article, a finding of irregularities or fraud may be made, *inter alia*, where there is a rapid increase, without legitimate explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may, in exceptional circumstances, temporarily suspend the relevant preferential treatment of the product or the products concerned, and of the specific origin concerned in accordance with this Article.

6. For the purposes of this Article, exceptional circumstances mean those circumstances which have or might have a significant negative effect on a Party if a relevant preferential treatment of the product or the products concerned is to be continued.

7. The application of a temporary suspension pursuant to paragraph 5 shall be subject to the following conditions:

(a) the Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Trade and Development Committee of its finding together with the objective information and enter into consultations within the Trade and Development Committee, on the basis of all relevant information and objective findings, including information related to capacity and/or structural constraints, with a view to reaching a solution acceptable to both Parties;

(b) where the Trade and Development Committee has examined the matter and has failed to agree on an acceptable solution within four (4) months from the receipt of the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product or products concerned, and of the specific origin concerned. A temporary suspension shall be notified to the Trade and Development Committee without undue delay. At the request of either Party, the period to agree on an acceptable solution may, where duly justified, be extended to five (5) months;

(c) temporary suspensions under this Article shall be limited to those necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six (6) months, which may be renewed after the Trade and Development Committee has had the opportunity to re-examine the matter. Temporary suspensions shall be notified immediately after their adoption to the Trade and Development Committee. They shall be subject to periodic consultations within the Trade and Development Committee in particular with a view to their termination as soon as the conditions for their application are no longer given.

Article 31

Management of administrative errors

The Parties recognise each other's right to correct administrative errors during the implementation of this Agreement. Where errors are identified, either Party may request the Trade and Development Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

CHAPTER II

Trade defence instruments

Article 32

Anti-dumping and countervailing measures

The rights and obligations of either Party in respect of the application of anti-dumping or countervailing measures shall be governed by the relevant WTO Agreements. The provisions of this Article shall not be subject to the provisions of PART III.

Article 33

Multilateral safeguards

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent a Party from adopting measures in accordance with Article XIX of the GATT 1994, the WTO Agreement on Safeguards, Article 5 of the WTO Agreement on Agriculture annexed to the Marrakesh Agreement Establishing the World Trade Organisation ('WTO Agreement') and any other relevant WTO Agreements.

2. Notwithstanding paragraph 1, the EU shall, in the light of the overall development objectives of this Agreement and the small size of the economies of the SADC EPA States, exclude imports from any SADC EPA State from any measures taken pursuant to Article XIX of the GATT 1994, the WTO Agreement on Safeguards and Article 5 of the WTO Agreement on Agriculture.

3. The provisions of paragraph 2 shall apply for a period of five (5) years, beginning from the date of entry into force of this Agreement. Not later than one hundred and twenty (120) days before the end of this period, the Joint Council shall review the operation of paragraph 2 in the light of the development needs of the SADC EPA States, with a view to determining their possible extension for a further period.

4. The provisions of paragraph 1 shall not be subject to the provisions of Part III.

Article 34

General bilateral safeguards

1. Notwithstanding Article 33, after having examined alternative solutions, a Party or SACU, as the case may be, may apply safeguard measures of limited duration which derogate from the provisions of Articles 24 and 25, under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures referred to in paragraph 1 may be taken if, as a result of the obligations incurred by a Party under this Agreement, including tariff concessions, a product originating in one Party is being imported into the territory of the other Party or SACU, as the case may be, in such increased quantities and under such conditions as to cause or threaten to cause:

(a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party or SACU, as the case may be; or

(b) disturbances in a sector of the economy producing like or directly competitive products, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party or SACU, as the case may be; or

(c) disturbances in the markets of like or directly competitive agricultural products in the territory of the importing Party or SACU, as the case may be.

These safeguard measures shall not exceed what is necessary to remedy or prevent the serious injury or disturbances.

3. Safeguard measures referred to in this Article shall take the form of one or more of the following:

(a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement; or

(b) increase in the customs duty on the product concerned up to a level which does not exceed the MFN applied rate at the time of taking the measure; or

(c) introduction of tariff quotas on the product concerned.

4. Without prejudice to paragraphs 1 to 3, where any product originating in any SADC EPA State is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to in paragraphs 2(a) to (c) to a like or directly competitive production sector of one or several of the EU's outermost regions, the EU may take surveillance or safeguard measures limited to the region or regions concerned in accordance with the procedures laid down in paragraphs 6 to 8.

5. Without prejudice to paragraphs 1 to 3, where any product originating in the EU is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to in paragraph 2(a) to (c) to a SADC EPA State or SACU, as the case may be, the SADC EPA State concerned or SACU, as the case may be, may take surveillance or safeguard measures limited to its territory in accordance with the procedures laid down in paragraphs 6 to 8.

6. Safeguard measures referred to in this Article:

(a) shall only be maintained for such a time as may be necessary to prevent or remedy serious injury or disturbances as defined in paragraphs 2, 4 and 5;

(b) shall not be applied for a period exceeding two (2) years. Where the circumstances warranting imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two (2) years. Where a SADC EPA State or SACU, as the case may be, apply a safeguard measure, or where the EU apply a measure limited to the territory of one or more of its outermost regions, they may however apply that measure for a period not exceeding four (4) years and, where the circumstances warranting imposition of safeguard measures continue to exist, extend it for a further period of four (4) years;

(c) that exceed one (1) year shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest; and

(d) shall not be applied to the import of a product that has previously been subject to such a measure, within a period of at least one (1) year from the expiry of the measure.

7. For the implementation of paragraphs 1 to 6, the following provisions shall apply:

(a) where a Party or SACU, as the case may be, takes the view that one of the situations referred to in paragraphs 2(a) to (c), 4 and/or 5 exists, it shall immediately refer the matter to the Trade and Development Committee for examination;

(b) the Trade and Development Committee may make any recommendation needed to remedy the circumstances which have arisen. If no recommendation has been made by the Trade and Development Committee aimed at remedying the circumstances, or no other satisfactory solution has been reached within thirty (30) days of the matter being referred to the Trade and Development Committee, the importing party may adopt the appropriate measures to remedy the circumstances in accordance with this Article;

(c) before taking any measure provided for in this Article or, in the cases to which paragraph 8 applies, the Party or SACU, as the case may be, shall, as soon as possible, supply the Trade and Development Committee with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the parties concerned;

(d) in the selection of safeguard measures pursuant to this Article, priority must be given to those which least disturb the operation of this Agreement. If the MFN applied rate in effect the day immediately preceding the day of entry into force of this Agreement is lower than the MFN applied rate at the time of taking the measure, measures applied in accordance with the provisions of paragraph 3(b) may exceed the MFN rate in effect the day immediately preceding the day of entry into force of this Agreement. In such a case, the Party or SACU, as the case may be, shall supply, in accordance with the provisions of paragraph (c), the Trade and Development Committee with the relevant information indicating that an increase of the duty up to the level of MFN applied at the time of entry into force is not sufficient and that a measure exceeding this duty is necessary to remedy or prevent the serious injury or disturbances pursuant to paragraph 2;

(e) any safeguard measure taken pursuant to this Article shall be notified immediately to the Trade and Development Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

8. Where delay would cause damage which would be difficult to repair, the importing Party or SACU, as the case may be, may take the measures provided for in paragraphs 3, 4, and/or 5 on a provisional basis without complying with the requirements of paragraph 7.

(a) Such action may be taken for a maximum period of one hundred and eighty (180) days where measures are taken by the EU and two hundred (200) days where measures are taken by a SADC EPA State or SACU, as the case may be, or where measures taken by the EU are limited to the territory of one or more of its outermost region(s).

(b) The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraph 6.

(c) In taking such provisional measures, the interest of all parties involved shall be taken into account.

(d) The importing Party or SACU, as the case may be, shall inform the other Party concerned and it shall immediately refer the matter to the Trade and Development Committee for examination.

9. If the importing Party or SACU, as the case may be, subjects imports of a product to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows liable to give rise to the problems referred to in this Article, it shall inform the Trade and Development Committee without delay.

10. Safeguard measures adopted under the provisions of this Article shall not be subject to WTO Dispute Settlement provisions.

Article 35

Agricultural safeguards

1. Notwithstanding Article 34, a safeguard measure in the form of an import duty may be applied if, during any given twelve-month period, the volume of imports into SACU of an agricultural product listed in Annex IV originating in the EU exceeds the reference quantity for the product therein indicated.

2. A duty which shall not exceed 25 per cent of the current WTO bound tariff or 25 percentage points, whichever is higher, may be imposed to the agricultural products referred to in paragraph 1. Such duty shall not exceed the prevailing MFN applied rate.

3. Safeguard measures referred to in this Article shall be maintained for the remainder of the calendar year or five (5) months, whichever is the longer.

4. Safeguard measures referred to in this Article shall not be maintained or applied with respect to the same good at the same time as:

(a) a general bilateral safeguard measure in accordance with Article 34;

(b) a measure under Article XIX of the GATT 1994 and the WTO Agreement on Safeguards; or

(c) a special safeguard measure under Article 5 of the WTO Agreement on Agriculture.

5. Safeguard measures referred to in this Article shall be implemented in a transparent manner. Within ten (10) days after applying such a measure, SACU shall notify the EU in writing and shall provide relevant data concerning the measure. On request, SACU shall consult the EU regarding the application of the measure. SACU shall also notify the Trade and Development Committee within thirty (30) days after such imposition.

6. The implementation and operation of this Article may be the subject of discussion and review in the Trade and Development Committee. On request of either Party, the Trade and Development Committee may review the reference quantities and agricultural products as provided for in this Article.

7. The provisions of this Article may only be applied during the period of twelve (12) years from the date of entry into force of this Agreement.

Article 36

Food security safeguards

1. The Parties acknowledge that the removal of barriers to trade between them, as envisaged in this Agreement, may pose significant challenges to the SADC EPA States' producers in the agricultural and food sectors and agree to consult with each other on these issues.

2. Notwithstanding Article 34, where essential for the prevention or relief of critical general or local shortages of foodstuffs or other products in order to ensure food security of a SADC EPA State and where this situation gives rise or is likely to give rise to major difficulties for such a SADC EPA State, that SADC EPA State may adopt safeguard measures in accordance with the procedure set out in paragraph 7(b) to (d), 8 and 9 of Article 34. The measure will be reviewed at least annually and shall be removed as soon as the circumstances leading to its adoption cease to exist.

Article 37

BLNS transitional safeguards

1. The Parties acknowledge the sensitivity of the liberalised products listed in Annex V for the BLNS States.

2. Notwithstanding Article 34, in the event that one of the products listed in Annex V and originating in the EU being imported into the territory of a BLNS State in such increased quantities as to cause or threaten to cause serious injury in any BLNS State, that BLNS State may apply a transitional safeguard measure.

3. Safeguard measures referred to in paragraph 2 shall take the form of a duty on the product concerned listed in Annex V up to a level which does not exceed the MFN applied rate at the time of taking the measure or introduce a zero duty tariff rate quota (TRQ), provided that the level of the duty outside the quota does not exceed the MFN applied rate at the time of taking the measure.

4. Thirty (30) days in advance of applying the safeguard measure, the BLNS State concerned shall notify the measure to the EU in writing. After notification, the BLNS State concerned shall have sixty (60) days to provide all relevant information concerning the measure.

5. Without prejudice to paragraph 2, the BLNS State concerned and the EU shall, upon request of either Party, enter into consultations on the safeguard measure.

6. Safeguard measures referred to in this Article shall be applied for a period not exceeding four (4) years. Where the circumstances warranting imposition of the measure continue to exist, such a measure may be extended for a further period of no more than four (4) years.

7. No safeguard measure referred to in this Article may be adopted after twelve (12) years from the entry into force of this Agreement.

Article 38

Infant industry protection safeguards

1. Notwithstanding Article 34, Botswana, Lesotho, Namibia, Mozambique and Swaziland may temporarily suspend further reductions of the rate of customs duty or increase the rate of customs duty up to a level which does not exceed the applied MFN duty, where a product originating in the EU, as a result of the reduction of duties, is being imported into its territory in such increased quantities and under such conditions as to threaten the establishment of an infant industry, or cause or threaten to cause disturbances to an infant industry producing like or directly competitive products.

2. Safeguard measures adopted in accordance with the conditions of paragraph 1 by a SADC EPA State which is also a SACU Member State shall take the form of the levying of additional duties exclusively by the SADC EPA State invoking this provision.

3. Safeguard measures referred to in paragraph 1 may be applied for a period of up to eight (8) years and may be further extended by a decision of the Joint Council

4. With regard to the implementation of paragraphs 1 and 2, the following provisions shall apply:

(a) where a SADC EPA State takes the view that the circumstances set out in paragraph 1 exist, it shall immediately refer the matter to the Trade and Development Committee for examination. The SADC EPA State concerned shall supply the Trade and Development Committee with all relevant information required for a thorough examination of the situation;

(b) the Trade and Development Committee may make any recommendation with a view to seeking an acceptable solution needed to remedy the circumstances which have arisen. If no recommendation has been made by the Trade and Development Committee, or no other satisfactory solution has been reached within thirty (30) days of the matter being referred to the Trade and Development Committee, the SADC EPA State concerned may adopt measures in accordance with this Article;

(c) in the application of measures pursuant to paragraph 1, priority must be given to those which least disturb the operation of this Agreement; and

(d) any measure taken pursuant to this Article shall be notified immediately to the Trade and Development Committee and shall be the subject of periodic consultations within that body.

5. In critical circumstances where delay would cause damage which would be difficult to repair, the SADC EPA State concerned may take measures provided for in paragraph 1 on a provisional basis without complying with the requirements of paragraph 4. Such measure may be taken for a maximum period of two hundred (200) days. The duration of any such provisional measure shall be counted as part of the period referred to in paragraph 3. In taking such provisional measures, the interest of all parties involved shall be taken into account. The importing SADC EPA State concerned shall inform the EU, and it shall immediately refer the matter to the Trade and Development Committee for examination of such provisional measure.

6. SACU Member States shall have the right to have recourse to Article 26 of the SACU Agreement.

CHAPTER III

Non-tariff measures

Article 39

Prohibition of quantitative restrictions

The Parties may apply quantitative restrictions provided such restrictions are applied in conformity with the WTO Agreement.

Article 40

National treatment on internal taxation and regulation

1. The Parties recognise that internal taxes and other internal charges, and laws, regulations and requirements affecting the internal sale, offering for sale, purchase, transportation, distribution or use of products, and internal quantitative regulations requiring the mixture, processing or use of products in specified amounts or proportions, should not be applied to imported or domestic products so as to afford protection to domestic production.

2. Imported products originating in the other Party shall not be subject, directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges to imported or domestic products in a manner contrary to the principles set forth in paragraph 1 ([1]).

3. Imported products originating in the other Party shall be accorded treatment no less favourable than that accorded to like domestic products of national origin in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

([1]) A tax conforming to the requirements of the first sentence of this paragraph would be considered to be inconsistent with the provisions of its second sentence only in cases where competition was involved between, on the one hand, the taxed product and, on the other hand, a directly competitive or substitutable product which was not similarly taxed.

4. The Parties shall not establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, Parties shall not otherwise apply internal quantitative regulations in a manner contrary to the principles set forth in paragraph 1.

5. No internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions shall be applied in such a manner as to allocate any such amount or proportion among external sources of supply.

6. The provisions of this Article shall not apply to laws, regulations or requirements governing the procurement by governmental agencies of products purchased for governmental purposes and not with a view to commercial resale or with a view to use in the production of goods for commercial sale.

7. The provisions of this Article shall not prevent the payment of subsidies exclusively to domestic producers, including payments derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.

8. The Parties recognise that internal maximum price control measures, even though conforming to the other provisions of this Article, can have effects prejudicial to the interests of Parties supplying imported products. Accordingly, Parties applying such measures shall take account of the interests of exporting Parties with a view to avoiding to the fullest practicable extent such prejudicial effects.

9. The provisions of this Article shall not prevent any Party from establishing or maintaining internal quantitative regulations relating to exposed cinematograph films and meeting the requirements of Article IV of the GATT 1947.

CHAPTER IV

Customs and trade facilitation

(j) the elimination of any requirements for the mandatory use of pre-shipment inspections as defined by the WTO Agreement on Preshipment Inspection, or their equivalent;

(k) the application of rules that ensure that any penalties imposed for minor breaches of customs regulations or procedural requirements are proportionate and, in their application, do not give rise to undue delays in customs clearance;

(l) a system of binding rulings on customs matters, in particular on tariff classification and rules of origin, in accordance with rules laid down in their respective legislation;

(m) the facilitation of transit movements;

(n) the elimination of all requirements for the mandatory use of customs brokers; and

(o) transparent, non-discriminatory and proportionate rules in respect of the licensing of customs brokers.

2. In order to improve working methods and to ensure transparency and efficiency of customs operations, the Parties shall:

(a) ensure that the highest standards of integrity be maintained, through the application of anti-corruption measures in this field;

(b) take further steps towards the reduction, simplification and standardization of data in the documentation required by customs and other related agencies;

(c) simplify requirements and formalities wherever possible, in respect of the rapid release and clearance of goods;

(d) provide effective, prompt and non-discriminatory procedures enabling the right of appeal, against customs and other agency administrative actions, rulings and decisions affecting imports, exports or goods in transit. Procedures for appeal shall be easily accessible, including to small or medium enterprises; and

(e) create an environment for the effective enforcement of legislative requirements.

Article 44

Facilitation of transit movements

1. The Parties shall ensure freedom of transit through their territory via the route most convenient for transit. Any controls or requirements must be non-discriminatory, proportionate and applied uniformly.

2. Without prejudice to legitimate customs control, the Parties shall accord to traffic in transit treatment no less favourable than that accorded to domestic goods, exports and imports, and their movement.

3. The Parties shall:

(a) operate bonded transport regimes that allow the transit of goods without payment of duties or other charges, subject to the provision of an appropriate guarantee;

(b) promote and implement regional transit arrangements;

(c) use international standards and instruments relevant to transit; and

(d) promote coordination between all concerned agencies, both internally and across borders.

Article 45

The Parties agree to:

(a) ensure that all customs legislation, procedures and fees and charges are made publicly available, as well as whenever possible the necessary explanations, and as far as possible through electronic means;

(b) consult, as far as possible, timely and regularly with trade representatives on legislative proposals and procedures related to customs and customs related trade issues;

(c) introduce, where appropriate, new or amended legislation and procedures and their entry into force in a way to allow traders to become well prepared for complying with them. The Parties shall make publicly available relevant notices of an administrative nature, including agency requirements and entry procedures, hours of operation and operating procedures for customs offices at ports and border crossing points, and points of contact for information enquiries; and

(d) to foster cooperation between operators and relevant administrations through the use of instruments such as memoranda of understanding.

Article 46

Customs valuation

If the Party complained against fails to notify any measure taken to comply with the arbitral ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 85(1) is not compatible with the provisions of this Agreement, the Party complained against shall, if so requested by the complaining Party, present an offer for compensation. Such compensation may include or consist of financial compensation, although nothing in this Agreement shall oblige the Party complained against to offer such financial compensation.

2. If no agreement on compensation is reached within thirty (30) days of the end of the reasonable period of time or of the arbitral ruling under Article 85 that a measure taken to comply is not compatible with this Agreement, the complaining Party shall be entitled, upon notification to the Party complained against, to adopt appropriate measures.

3. In adopting such measures the complaining Party shall seek to select measures proportionate to the violation which least affect the attainment of the objectives of this Agreement and shall take into consideration their impact on the economy of the Party complained against and on the individual SADC EPA States.

4. If the EU fails to notify any measure taken to comply with the arbitral ruling by the expiry of the reasonable period of time at the latest, or if the arbitration panel rules that the measure notified under Article 85(1) is not compatible with that Party's obligations under this Agreement, and the complaining Party asserts that the adoption of appropriate measures would result in significant damage to its economy, the EU shall consider providing financial compensation.

5. The EU shall exercise due restraint in asking for compensation or adopting appropriate measures pursuant to paragraphs 1 or 2.

6. Compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

7. For the purposes of Articles 86 and 87, appropriate measures refer to measures similar to those available under Understanding on Rules and Procedures Governing the Settlement of Disputes contained in Annex 2 of the WTO Agreement ('DSU').

Article 87

Review of any measure taken to comply after the adoption of appropriate measures

1. The Party complained against shall notify the complaining Party and the Trade and Development Committee of any measure it has taken to comply with the arbitral ruling and of its request to end the application of appropriate measures by the complaining Party.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within thirty (30) days of the date of notification, the complaining Party shall request in writing the original arbitration panel to rule on the matter. Such request shall be notified to the Party complained against and to the Trade and Development Committee. The arbitral ruling shall be notified to the Parties and to the Trade and Development Committee within forty-five (45) days of the date of the receipt of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the provisions of this Agreement, the arbitration panel shall determine whether the complaining Party may continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 80 shall apply. The period for notifying the ruling shall be sixty (60) days from the date of the receipt of the request referred to in paragraph 2.

At the request of a Party, or upon its own initiative, the arbitration panel may obtain information from any source, including the Parties involved in the dispute, it deems appropriate for the arbitration proceeding. The arbitration panel shall also have the right to seek the opinion of relevant experts as it deems appropriate. Interested entities are authorised to submit *amicus curiae* briefs to the arbitration panel in accordance with the Rules of Procedure. Any information obtained in this manner must be disclosed to the Parties and submitted for their comments.

Article 91

Languages of the submissions

1. The written and oral submissions of the Parties shall be made in any official language of the Parties.

2. The Parties shall endeavour to agree on a common working language for any specific proceedings under this Part. If the Parties are unable to agree on a common working language, each Party shall arrange for and bear the costs of the translation of its written submissions and interpretation at the hearings into the language chosen by the Party complained against, unless such language is an official language of that Party. The EU shall, when seeking to agree on a common working language, take into account the potential impact of such costs on the SADC EPA States.

Article 92

Rules of interpretation

The arbitration panel shall interpret the provisions of this Agreement in accordance with the customary rules of interpretation of public international law, including those codified in the Vienna Convention on the Law of Treaties. The rulings of the arbitration panel cannot add to or diminish the rights and obligations provided for in this Agreement.

Article 93

Arbitral rulings

1. The arbitration panel shall make every effort to take any decision by consensus. Where, nevertheless, a decision cannot be arrived at by consensus, the matter at issue shall be decided by majority vote.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the reasoning behind any findings and conclusions that it makes. The Trade and Development Committee shall make the arbitral ruling publicly available unless it decides not to do so.

Article 94

List of arbitrators

1. The Trade and Development Committee shall, no later than three (3) months after the entry into force of this Agreement, establish a list of twenty-one (21) individuals who are willing and able to serve as arbitrators. Each of the Parties shall select eight (8) individuals to serve as arbitrators. The Parties shall also agree on five (5) individuals who are not nationals of either Party and who shall act as chairperson of the arbitration panel. The Trade and Development Committee will ensure that the list is always maintained in accordance with this Article.

2. Arbitrators shall have specialised knowledge on matters covered by this Agreement or experience in law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the governments of any of the Parties, and shall comply with the Code of Conduct annexed to the Rules of Procedures.

3. The Trade and Development Committee may establish an additional list of fifteen (15) individuals having a sectoral expertise in specific matters covered by this Agreement. When recourse is made to the selection procedure of Article 80, the Chairperson of the Trade and Development Committee may use such a sectoral list upon agreement of both Parties.

Article 95

Relation with WTO obligations

1. Arbitration bodies set up under this Agreement shall not arbitrate disputes on a Party's rights and obligations under the WTO Agreement.

2. Recourse to the dispute settlement provisions of this Agreement shall be without prejudice to any action in the WTO framework, including dispute settlement action. However, where a Party has, with regard to a particular measure, initiated a dispute settlement proceeding under this Agreement or under the WTO Agreement, it may not initiate a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. For the purposes of this paragraph, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the DSU.

3. Nothing in this Agreement shall preclude a Party from implementing the suspension of obligations authorised by the Dispute Settlement Body of the WTO.

Article 96

Time limits

1. Any time limits referred to in this Part, including the limits for the arbitration panels to notify their rulings, shall be counted in calendar days from the day following the act or fact to which they refer.

2. Any time limits referred to in this Part may be extended by mutual agreement of the Parties.

PART IV

GENERAL EXCEPTIONS

Article 97

General exception clause

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent the adoption or enforcement by either Party of measures:

(a) necessary to protect public morals;

(b) necessary to protect human, animal or plant life or health;

(c) relating to the importation or exportation of gold or silver;

(d) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Agreement, including those relating to customs enforcement, the enforcement of monopolies operated under paragraph 4 of Article II and Article XVII of the GATT, the protection of patents, trade marks and copyrights, and the prevention of deceptive practices;

(e) relating to the products of prison labour;

(f) imposed for the protection of national treasures of artistic, historic or archaeological value;

(g) relating to the conservation of exhaustible natural resources if such measures are made effective in conjunction with restrictions on domestic production or consumption;

(h) undertaken in pursuance of obligations under any intergovernmental commodity agreement which conforms to criteria submitted to the GATT Contracting Parties and not disapproved by them or which is itself so submitted and not so disapproved ([1]);

(i) involving restrictions on exports of domestic materials necessary to ensure essential quantities of such materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan; Provided that such restrictions shall not operate to increase the exports of or the protection afforded to such domestic industry, and shall not depart from the provisions of this Agreement relating to non-discrimination; or

(j) essential to the acquisition or distribution of products in general or local short supply; Provided that any such measures shall be consistent with the principle that the Parties and the SADC EPA States are entitled to an equitable share of the international supply of such products, and that any such measures, which are inconsistent with the other provisions of this Agreement shall be discontinued as soon as the conditions giving rise to them have ceased to exist.

Article 98

Security exceptions

1. Nothing in this Agreement shall be construed to:

(a) require either Party to furnish any information the disclosure of which it considers contrary to its essential security interests; or

(b) prevent either Party from taking any action which it considers necessary for the protection of its essential security interests:

(i) relating to fissionable materials or the materials from which they are derived; or

(ii) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials as is carried on directly or indirectly for the purpose of supplying a military establishment; or

(iii) taken in time of war or other emergency in international relations; or

(c) prevent either Party from taking any action in pursuance of its obligations under the United Nations Charter for the maintenance of international peace and security.

2. The Trade and Development Committee shall be informed of measures taken under paragraph 1(b) and (c) and of their termination.

Article 99

Taxation

1. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent either Party from distinguishing, in the application of the relevant provisions of their fiscal legislation, between taxpayers who are not in the same situation, in particular with regard to their place of residence or with regard to the place where their capital is invested.

2. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent the adoption or enforcement of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of agreements to avoid double taxation or other tax arrangements or domestic fiscal legislation.

([1]) The exception provided for in this sub-paragraph extends to any commodity agreement which conforms to the principles approved by the Economic and Social Council in its resolution 30 (IV) of 28 March 1947.

3. Nothing in this Agreement shall affect the rights and obligations of either Party under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency.

PART VI

GENERAL AND FINAL PROVISIONS

Article 104

Definition of the Parties and fulfilment of obligations

1. The Parties of this Agreement shall be Botswana, Lesotho, Namibia, South Africa, Swaziland and Mozambique, of the one part ('the SADC EPA States'), and the European Union or its Member States or the European Union and its Member States, within their respective areas of competence as derived from the Treaty on European Union (TEU) and the Treaty on the Functioning of the European Union (TFEU), of the other part ('the EU').

2. The term 'Party' shall refer to the SADC EPA States individually on the one part or the EU on the other part as the case may be.

3. Where reference is made to SACU in this Agreement, as in Articles 25(1), 34, 35 and 101 and in PART III, Botswana, Lesotho, Namibia, South Africa and Swaziland, shall act collectively as provided for in the SACU Agreement.

4. The Joint Council may decide to modify the application of paragraph 3.

5. The Parties shall adopt any general or specific measures required to fulfil their obligations under this Agreement and shall ensure that they comply with the objectives laid down in this Agreement.

Article 105

Exchange of information

1. In order to facilitate communication relating to the effective implementation of this Agreement, the Parties shall designate a coordinator for the exchange of information upon the entry into force of this Agreement. The designation of a coordinator for the exchange of information is without prejudice to the specific designation of competent authorities under specific provisions of this Agreement.

2. At the request of either Party, the coordinator of the other Party shall indicate the office or official responsible for any matter pertaining to the implementation of this Agreement and provide the required support to facilitate communication with the requesting Party.

3. At the request of either Party, the other Party shall, to the extent legally possible, provide information and reply promptly to any question relating to an actual or proposed measure that might affect trade between the Parties.

Article 106

Transparency

1. A Party shall publish or make publicly available its laws, regulations, procedures and administrative rulings of general application as well as any other commitments under an international agreement relating to any trade matter covered by this Agreement. Any such measures adopted after the entry into force of this Agreement shall be brought to the attention of the other Party.

2. Without prejudice to specific transparency provisions in this Agreement, the information referred to under this Article shall be considered to have been brought to the attention of the other Party when the information has been made available:

(a) by appropriate notification to the WTO; or

(b) on the official, fee-free and publicly accessible website; or

(c) to the coordinator of the other Party.

However, where the EU has provided such information and it has not been notified to the WTO through an official, fee-free and publicly accessible website, the SADC EPA States, which, because of capacity constraints, have difficulties accessing such a website, may request the EU to provide such information to the relevant coordinator.

3. Nothing in this Agreement shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private, except to the extent that it may be necessary to be disclosed in the context of a dispute settlement proceeding under this Agreement. Where such disclosure is considered necessary by a panel established under PART III, the panel shall ensure that confidentiality is fully protected.

Article 107

Temporary difficulties in implementation

A Party encountering difficulties in meeting its obligations under this Agreement as a result of factors beyond its control shall immediately bring the matter to the attention of the Joint Council.

Article 108

Regional preferences

1. Nothing in this Agreement shall oblige a Party to extend to the other Party any more favourable treatment which is applied by a Party as part of its respective regional integration process.

2. Any more favourable treatment and advantage that may be granted under this Agreement by a SADC EPA State to the EU shall be enjoyed by the other SADC EPA States.

Article 109

Outermost regions of the EU

1. Taking account of the geographical proximity of the outermost regions of the EU and the SADC EPA States and in order to reinforce economic and social links between those regions and the SADC EPA States, the Parties shall endeavour to facilitate cooperation in all areas covered by this Agreement between the outermost regions of the EU and the SADC EPA States.

2. The objectives of paragraph 1 shall also be pursued, wherever possible, through fostering the joint participation of the SADC EPA States and the outermost regions of the EU in the framework and specific programmes of the EU in areas covered by this Agreement.

3. The EU shall endeavour to ensure coordination between the various financial instruments of the EU's cohesion and development policies in order to foster cooperation between the SADC EPA States and the outermost regions of the EU in the areas covered by this Agreement.

4. Nothing in this Agreement shall prevent the EU from applying existing measures aimed at addressing the structural social and economic situation of its outermost regions pursuant to Article 349 of the TFEU. This provision shall not permit the maintenance of tariffs on trade between the Parties other than those permitted pursuant to paragraph 2 of PART III of ANNEX I.

Article 110

Relations with the Cotonou Agreement

1. With the exception of development cooperation provisions provided for in Title II of Part 3 of the Cotonou Agreement, in case of any inconsistency between the provisions of this Agreement and the provisions of Title II of Part 3 of the Cotonou Agreement, the provisions of this Agreement shall prevail to the extent of such inconsistency.

2. Nothing in this Agreement shall be construed so as to prevent the adoption by either Party of appropriate measures pursuant to the Cotonou Agreement.

Article 111

Relations with the TDCA

The relationship between this Agreement and the TDCA shall be governed by the provisions of Protocol 4.

Article 112

Relations with the WTO Agreement

The Parties agree that nothing in this Agreement requires them to act in a manner inconsistent with their WTO obligations.

Article 113

Entry into force [1]

1. This Agreement shall be signed, ratified or approved in accordance with the applicable constitutional or internal rules and procedures of each Party.

[1] The Parties to the attached Protocol on Geographical indications and on trade in wines and spirits shall implement the undertakings therein.

2. This Agreement shall enter into force thirty (30) days following the deposit of the last instrument of ratification, acceptance or approval.

3. Pending entry into force of this Agreement, the EU and the SADC EPA States agree to apply the provisions of this Agreement which fall within their respective competences ('provisional application'). This may be effected either by provisional application, where possible, or by ratification of this Agreement.

4. This Agreement shall be applied provisionally between the EU and a SADC EPA state ten (10) days after either the receipt of notification of provisional application from the EU or of ratification or provisional application from that SADC EPA state, whichever is the later.

5. Provisional application of this Agreement between the EU and a Member of SACU shall exclude the agricultural market access concessions and the fisheries market access concessions referred to in Article 24(2) and Article 25(1), that are denoted by an asterisk (*) in the tariff schedules as set out in Annexes I and II, until such time as all members of SACU have ratified or provisionally applied this Agreement.

6. Provisional application or entry into force of this Agreement between the EU and a Member of SACU shall exclude the agricultural market access concessions referred to in Article 24(2) and Article 25(1), that are denoted by an asterisk (*) in the tariff schedules as set out in Annexes I and II, until such time as the conditions set out in Article 16 of Protocol 3 are met.

7. Notifications regarding the provisional application or ratification shall be sent to the Secretary-General of the Council of the European Union, who shall be the depository of this Agreement. Certified copies of the notifications shall be lodged with the Executive Secretary of the SADC Secretariat

8. If pending the entry into force of this Agreement, the Parties decide to apply it provisionally, all references in this Agreement to the date of entry into force shall be deemed to refer to the date such provisional application takes effect.

Article 114

Duration

1. This Agreement shall be valid indefinitely.

2. Either Party may give written notice of its intention to denounce this Agreement.

3. Denunciation shall take effect six (6) months after the notification referred to in paragraph 2.

Article 115

Territorial application

1. This Agreement shall apply, on the one hand, to the territories in which the TEU and TFEU are applied and under the conditions laid down in those Treaties, and, on the other hand, to the territories of the SADC EPA States.

2. References in this Agreement to 'territory' shall be understood in this sense.

Article 116

Revision clause

1. The Parties agree to review this Agreement in its entirety no later than five (5) years after its entry into force. Such review is without prejudice to instances of adjustments, reviews or revisions otherwise provided for in this Agreement, such as those contemplated under Articles 12(2), 16(8), 17(5), 18(5), 26(10), 33(3), 35(6) and 65(e).

2. As regards the implementation of this Agreement, either Party may make suggestions oriented towards adjusting trade-related cooperation, taking into account the experience acquired during the implementation thereof.

3. The Parties agree that this Agreement may need to be reviewed in light of further developments in international economic relations and in the light of the expiration of the Cotonou Agreement.

Article 117

Amendments

1. Any Party may submit proposals for amendments to this Agreement to the Joint Council for consideration and adoption.

2. Amendments to this Agreement shall, after adoption by the Joint Council, be submitted to the Parties for ratification, acceptance or approval in accordance with their respective constitutional or internal legal requirements.

Article 118

Accession of new EU Member States

1. The Joint Council shall be advised of any request made by a third State to become a member of the EU. During the negotiations between the EU and the applicant State, the EU shall provide the SADC EPA States with any relevant information. The SADC EPA states shall convey their concerns, and may request consultations, to the EU so that the EU can take them fully into account. The SADC EPA States shall be notified by the EU of any accession to the EU.

2. Any new Member State of the European Union shall accede to this Agreement from the date of its accession to the EU by means of a clause to that effect in the act of accession. If the act of accession to the Union does not provide for such automatic accession of the EU Member State to this Agreement, the EU Member State concerned shall accede by depositing an act of accession with the General Secretariat of the Council of the European Union, which shall send certified copies to the SADC EPA States.

3. The Parties shall review the effects of the accession of new EU Member States on this Agreement. The Joint Council may decide on any transitional or amending measures that might be necessary.

Article 119

Accession

1. A third state or organisation having competence for the matters covered by this Agreement may request to accede to this Agreement. If the Joint Council agrees to consider such a request, the Parties and the state or organisation requesting to accede shall conduct negotiations on the terms of accession. The Protocol of Accession shall be adopted by the Joint Council and submitted for ratification, acceptance or approval in accordance with the Parties' respective constitutional or internal legal requirements.

2. The Parties shall review the effects of such accession on this Agreement. The Joint Council may decide on any transitional or amending measures that might be necessary.

3. Notwithstanding paragraph 1, the Parties agree that in the case of a request from Angola to the Joint Council to accede to this Agreement, negotiations concerning the terms of accession should be conducted on the basis of this Agreement, taking into account the specific situation of Angola.

General notes

1. Where a staging category is denoted by a letter, the concession or part of the concession as described in this ANNEX shall apply from the date of entry into force of this Agreement within the meaning of Article 113(2) or the relevant date of provisional application of this Agreement within the meaning of Article 113(4), whichever is the earlier, for goods originating in a SADC EPA State and presented for customs clearance in the EU.

2. Where a staging category denoted by a letter is additionally denoted by an asterisk ('*'), the concession or part of the concession as described in this ANNEX shall apply from the date on which both conditions set out in Article 113(5) and (6) have been met, for goods originating in a SADC EPA State and presented for customs clearance in the EU.

3. Where the column of the Schedule in PART II entitled 'Staging category for South Africa' lists a customs duty instead of a staging category denoted by a letter, that duty as described in this ANNEX shall apply from the date referred to in paragraph 1.

4. Generic references to a category of goods in square brackets in Sections A and B only serve an indicative purpose. The product scope of each staging category is set out in the Schedule in PART II.

5. In addition to the requirements of Article 23(5), at the date of entry into force of this Agreement, the EU shall notify to the Department of Trade and Industry of South Africa its list of duties applied, on the day before the entry into force of this Agreement, to goods originating in South Africa and listed as staging categories 'B*' and 'C*'. After notification, as provided for in this paragraph, the EU shall make public its list according to its own internal procedures and within one month after the notification. The Trade and Development Committee shall, at its first meeting after notification and publication, adopt such list communicated by the EU.

SECTION A

Elimination of customs duties

6. Except as otherwise provided for in the EU Schedule included in PART II of this ANNEX, the following staging categories shall apply to the elimination of customs duties by the EU pursuant to Article 24:

   (a) customs duties on originating goods listed as staging category 'A' in the EU Schedule shall be eliminated on the date referred to in paragraph 1 of this ANNEX;

   (b) customs duties on originating goods listed as staging category 'A*' in the EU Schedule shall be eliminated on the date referred to in paragraph 2 of this ANNEX;

   (c) [*fish*] customs duties on originating goods listed as staging category 'B*' in the EU Schedule shall be gradually eliminated in accordance with the following provisions:

      (i) on the date referred to in paragraph 2 of this ANNEX, each customs duty shall be reduced to 83 per cent of the EU customs duty applied to goods originating in South Africa on the day before the entry into force of this Agreement;

      (ii) on 1 January following the date referred to in paragraph 2 of this ANNEX, each customs duty shall be further reduced to 67 per cent of the EU customs duty applied to goods originating in South Africa on the day before the entry into force of this Agreement;

18. By way of derogation from paragraphs 15(c), 16(a), and 16(b), the EU, SACU and Mozambique may remove any material from their respective lists. Cumulation with the materials that were removed from the respective list will become effective upon notification and publication of the revised lists. A party may also decide to refer the matter to the dispute settlement mechanism of this Agreement, as provided for in Article PART III of this Agreement, if no satisfactory solution is found within the Joint Council.

Article 8

Sufficiently worked or processed products

1. For the purposes of Article 2 of this Protocol, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in Annex II are fulfilled.

2. Notwithstanding paragraph 1, the products which are listed in Annex II(a) can be considered to be sufficiently worked or processed, for the purposes of Article 2 of this Protocol, when the conditions set out in that Annex are fulfilled.

3. The conditions referred to in paragraphs 1 and 2 above indicate, for all products covered by this Agreement, the working or processing which must be carried out on non–originating materials used in manufacturing and apply only in relation to such materials. Accordingly, it follows that if a product, which has acquired originating status by fulfilling the conditions set out in either Annex II or Annex II(a), is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non–originating materials which may have been used in its manufacture.

4. Notwithstanding paragraphs 1 and 2, non–originating materials which, according to the conditions set out in Annex II and Annex II(a) should not be used in the manufacture of a given product may nevertheless be used, provided that:

(a) their total value does not exceed 15 per cent of the ex–works price of the product;

(b) any of the percentages given in Annex II and Annex II(a) for the maximum value of non–originating materials are not exceeded through the application of this paragraph.

5. The provisions of paragraph 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.

6. Paragraphs 1 to 5 shall apply subject to the provisions of Article 9 of this Protocol.

Article 9

Insufficient working or processing

1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 8 of this Protocol are satisfied:

(a) preserving operations to ensure that the products remain in good condition during transport and storage;

(b) breaking–up and assembly of packages;

(c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

(d) ironing or pressing of textiles;

(e) simple painting and polishing operations;

(f) husking, partial or total bleaching, polishing, and glazing of cereals and rice;

Article 10

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

Accordingly, it follows that:

(a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 for the interpretation of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

Article 11

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

Article 12

Sets

Sets, as defined in General Rule 3 for the interpretation of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non–originating products, the set as a whole shall be regarded as originating, provided that the value of the non–originating products does not exceed 15 per cent of the ex–works price of the set.

Article 13

Neutral elements

In order to determine whether a product is originating, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

(a) energy and fuel;

(b) plant and equipment;

(c) machines and tools;

(d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

Article 14

Principle of territoriality

1. Except as provided for in Articles 3, 4, 5 and 6 of this Protocol and paragraph 3, the conditions for acquiring originating status set out in Title II must be fulfilled without interruption in a SADC EPA State or in the EU.

2. Except as provided for in Articles 3, 4, 5 and 6 of this Protocol, where originating goods exported from a SADC EPA State or from the EU to another country return, they must be considered as non–originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

(a) the returning goods are the same goods as those exported; and

(b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the EU or a SADC EPA State on materials exported from the EU or from a SADC EPA State and subsequently re–imported there, provided that:

(a) the said materials are wholly obtained in the EU or in a SADC EPA State or have undergone working or processing beyond the operations referred to in Article 9 of this Protocol prior to being exported; and

(b) it can be demonstrated to the satisfaction of the customs authorities that:

(i) the re–imported goods have been obtained by working or processing the exported materials; and

(ii) the total added value acquired outside the EU or a SADC EPA State by applying the provisions of this Article does not exceed 10 % of the ex–works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the EU or a SADC EPA State. But where, in the list in Annex II or Annex II(a), a rule setting a maximum value for all the non–originating materials incorporated is applied in determining the originating status of the end product, the total value of the non–originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the EU or a SADC EPA State by applying the provisions of this Article, shall not exceed the stated percentage.

5. For the purposes of applying the provisions of paragraphs 3 and 4, 'total added value' shall be taken to mean all costs arising outside the EU or a SADC EPA State, including the value of the materials incorporated there.

6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or Annex II(a) or which can be considered sufficiently worked or processed only if the general tolerance laid down in Article 8(4) of this Protocol is applied.

7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.

8. Any working or processing of the kind covered by the provisions of this Article and done outside the EU or a SADC EPA State shall be done under the outward processing arrangements, or similar arrangements.

Article 15

Non alteration

1. The products declared for home use in a Party shall be the same products as exported from the other Party in which they are considered to originate. They shall not have been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any documentation to ensure compliance with specific domestic requirements of the importing Party, prior to being declared for home use.

2. Storage of products or consignments may take place provided they remain under customs supervision in the country(ies) of transit.

3. Without prejudice to the provisions of Title V, the splitting of consignments may take place where carried out by the exporter or under his responsibility, provided they remain under customs supervision in the country(ies) of splitting.

4. Compliance with paragraphs 1 to 3 shall be considered as satisfied unless the customs authorities have reason to believe the contrary; in such cases, the customs authorities may request the declarant to provide evidence of compliance, which may be given by any means, including contractual transport documents such as bills of lading or factual or concrete evidence based on marking or numbering of packages or any evidence related to the goods themselves.

Article 16

Accounting segregation

1. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non–originating fungible materials, the customs authorities may, at the written request of those concerned, authorise the so–called 'accounting segregation' method (hereinafter referred to as the 'method') to be used for managing such stocks.

2. The method shall ensure that, at any time, the number of products obtained which could be considered as originating in a SADC EPA State or in the EU is the same as that which would have been obtained had there been physical segregation of the stocks.

3. The customs authorities may grant the authorisation referred to in paragraph 1 subject to any conditions deemed appropriate.

4. The method shall be applied and the application thereof shall be recorded on the basis of the general accounting principles applicable in the country where the product was manufactured.

5. The beneficiary of the method may make out or apply for proofs of origin, as the case may be, for the quantity of products which may be considered as originating. At the request of the customs authorities, the beneficiary shall provide a statement of how the quantities have been managed.

6. The customs authorities shall monitor the use made of the authorisation and may withdraw it whenever the beneficiary makes improper use of the authorisation in any manner whatsoever or fails to fulfil any of the other conditions laid down in this Protocol.

7. For the purposes of paragraph 1, fungible materials means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another for origin purposes.

Article 17

Shipment of sugar

Shipment by sea between the territories of the Parties of raw sugar not containing added flavouring or colouring matter and destined for further refining, of subheadings 1701.12, 1701.13 and 1701.14 of the Harmonised System, of different origins, shall be allowed without keeping the sugar in separate stores. It shall be ensured that the amounts of such sugar which could be considered as originating is the same as the amounts that would have been declared for import by keeping the sugar in separate stores. The last port of loading should belong to the territory of an ACP EPA State.

Article 18

Exhibitions

1. Originating products, sent for exhibition in a country or territory other than those referred to in Articles 4 and 6 of this Protocol with which cumulation is applicable and sold after the exhibition for importation in the EU or in a SADC EPA State shall benefit on importation from the provisions of this Agreement provided it is shown to the satisfaction of the customs authorities that:

(a) an exporter has consigned these products from a SADC EPA State or from the EU to the country in which the exhibition is held and has exhibited them there;

(b) the products have been sold or otherwise disposed of by that exporter to a person in a SADC EPA State or in the EU;

(c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and

(d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.

2. A proof of origin must be issued or made out in accordance with the provisions of Title IV and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which the products have been exhibited may be required.

3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV

PROOF OF ORIGIN

Article 19

General requirements

1. Products originating in a SADC EPA State shall, on importation into the EU and products originating in the EU shall, on importation into a SADC EPA State, benefit from the provisions of this Agreement upon submission of either:

(a) in the cases specified in Article 24(1) of this Protocol, a declaration, subsequently referred to as the 'origin declaration', given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified. The text of the origin declaration appears in Annex IV; or

(b) a movement certificate EUR 1, a specimen of which appears in Annex III.

2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 29 of this Protocol, benefit from this Agreement without it being necessary to submit any of the documents referred to above.

3. For the purpose of applying the provisions of this Title, the exporters shall endeavour to use a language common to both the SADC EPA States and the EU.

Article 20

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in accordance with the provisions of this Protocol. If they are handwritten, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.

3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the EU or of a SADC EPA State if the products concerned can be considered as products originating in the EU or in the SADC EPA States or in one of the other countries or territories referred to in Article 4 of this Protocol and fulfil the other requirements of this Protocol.

5. The issuing customs authorities shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. The issuing customs authorities shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

Article 21

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 20(7) of this Protocol, a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

(a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or

(b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

4. Movement certificates EUR.1 issued retrospectively must be endorsed with the following phrase in English:

'ISSUED RETROSPECTIVELY'

or in Portuguese:

'EMITIDO A POSTERIORI'

5. The endorsement referred to in paragraph 4 shall be inserted in Box 7 of the movement certificate EUR.1.

Article 22

Issue of a duplicate movement certificate EUR.1

1. In the event of theft, loss or destruction of a movement certificate EUR.1, the exporter may apply to the customs authorities which issued it for a duplicate made out on the basis of the export documents in their possession.

2. The duplicate issued in this way must be endorsed with the following word in English:

'DUPLICATE'

or in Portuguese:

'SEGUNDA VIA'

3. The endorsement referred to in paragraph 2 shall be inserted in Box 7 of the duplicate movement certificate EUR.1.

4. The duplicate, which must bear the date of issue of the original movement certificate EUR.1, shall take effect as from that date.

Article 23

Issue of movement certificates EUR.1 on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in a SADC EPA State or in the EU, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the SADC EPA States or within the EU. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed and endorsed by the customs authority under whose control the products are placed.

Article 24

Conditions for making out an origin declaration

1. An origin declaration as referred to in Article 19(1)(a) of this Protocol may be made out by:

(a) an approved exporter within the meaning of Article 25 of this Protocol, or

(b) any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An origin declaration may be made out if the products concerned can be considered as products originating in the SADC EPA States or in the EU or in one of the other countries or territories referred to in Article 4 of this Protocol and fulfil the other requirements of this Protocol.

3. The exporter making out an origin declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.

4. An origin declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV to this Protocol, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is handwritten, it shall be written in ink in printed characters.

5. Origin declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 25 of this Protocol shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any origin declaration which identifies him as if it had been signed in manuscript by him.

6. An origin declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two (2) years after the importation of the products to which it relates.

Article 25

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter who makes frequent shipments of products under the trade cooperation provisions of this Agreement to make out origin declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.

2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.

3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the origin declaration.

4. The customs authorities shall monitor the use of the authorisation by the approved exporter.

5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, does not fulfil the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

Article 26

Validity of proof of origin

1. A proof of origin shall be valid for ten (10) months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.

2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.

3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

Article 27

Submission of proof of origin

Proof of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of this Agreement.

Article 28

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non–assembled products within the meaning of General Rule 2(a) for the interpretation of the Harmonised System falling within Sections XVI and XVII or heading 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

Article 29

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on customs declaration CN22/CN23 or on a sheet of paper annexed to that document.

2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

Article 30

Information procedure for cumulation purposes

1. When Articles 3(2), 3(3), 4(2), and 4(3) of this Protocol are applied, the evidence of originating status within the meaning of this Protocol of the materials coming from a SADC EPA State, from the EU, from another ACP EPA State or from an OCT shall be given by a movement certificate EUR.1, an origin declaration or the supplier's declaration, a specimen of which appears in Annex V A, given by the exporter in any of these countries or territories or in the EU from which the materials came. When Article 6(1) of this Protocol is applied, the evidence of originating status shall be given by Form A or a statement on origin.

2. When Articles 3(4), 3(5), 4(6) and 4(7) of this Protocol are applied, the evidence of the working or processing carried out in a SADC EPA State, in the EU, in another ACP EPA State or in an OCT shall be given by the supplier's declaration a specimen of which appears in Annex V B, given by the exporter in any of these countries or territories or in the EU from which the materials came. A separate supplier's declaration shall be made up by the supplier for each consignment of goods on the commercial invoice related to that shipment or in an annex to that invoice, or on a delivery note or other commercial document related to that shipment which describes the materials concerned in sufficient detail to enable them to be identified.

3. When a supplier regularly supplies a particular customer with goods whose status in respect of the rules of preferential origin is expected to remain constant for considerable periods of time, he may provide a single declaration, hereinafter referred to as 'a long–term supplier's declaration', provided that facts or circumstances on which it is granted remain unchanged, to cover subsequent shipments of those goods. A long–term supplier's declaration may be issued for a period of up to one year from the date of issue of the declaration.

4. A long–term supplier's declaration may be issued with retroactive effect. In such cases, its validity may not exceed a period of one year from the date on which it came into effect. However it is recognised that the customs authority would have the right to revoke a long term supplier's declaration, should the circumstances change, or when inaccurate or false information has been provided.

5. The supplier shall inform the client immediately when the long–term supplier's declaration is no longer valid in relation to the goods supplied.

6. The supplier's declaration may be made out on a pre–printed form.

7. The suppliers' declarations shall bear the original signature of the supplier in manuscript. However, where the origin and the supplier's declaration are established using electronic data–processing methods, the supplier's declaration need not be signed in manuscript provided the responsible official in the supplying company is identified to the satisfaction of the customs authorities in the State where the suppliers' declarations are established. The said customs authorities may lay down conditions for the implementation of this paragraph.

8. The supplier's declarations shall be submitted to the customs authorities in the exporting country requested to issue the movement certificate EUR.1.

9. The supplier making out a declaration must be prepared to submit at any time, at the request of the customs authorities of the country where the declaration is made out, all appropriate documents proving that the information given on this declaration is correct.

10. Suppliers' declarations made and information certificates issued before the date of entry into force of this Protocol in accordance with Article 26 of Annex II of Council Regulation (EC) No 1528/2007 shall remain valid for a transitional period of twelve (12) months.

Article 31

Supporting documents

The documents referred to in Articles 20(3) and 24(3) of this Protocol used for the purpose of proving that products covered by a movement certificate EUR.1 or an origin declaration can be considered as products originating in a SADC EPA State, in the EU or in one of the other countries or territories referred to in Articles 4 and 6 of this Protocol and fulfil the other requirements of this Protocol may consist inter alia of the following:

(a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal bookkeeping;

(b) documents proving the originating status of materials used, issued or made out in a SADC EPA State, in the EU or in one of the other countries or territories referred to in Articles 4 and 6 of this Protocol where these documents are used in accordance with national law;

(c) documents proving the working or processing of materials in a SADC EPA State, in the EU or in one of the other countries or territories referred to in Articles 4 and 6 of this Protocol, issued or made out in a SADC EPA State, in the EU or in one of the other countries or territories referred to in Articles 4 and 6 of this Protocol where these documents are used in accordance with national law;

(d) movement certificates EUR.1 or origin declarations proving the originating status of materials used, issued or made out in a SADC EPA State, in the EU or in one of the other countries or territories referred to in Article 4 and in accordance with this Protocol.

Article 32

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three (3) years the documents referred to in Article 20(3) of this Protocol.

2. The exporter making out an origin declaration shall keep for at least three (3) years a copy of this origin declaration as well as the documents referred to in Article 24(3) of this Protocol.

3. The supplier making out a supplier's declaration shall keep for at least three (3) years copies of the declaration and of the invoice, delivery notes or other commercial document to which this declaration is annexed as well as the documents referred to in Article 30(9) of this Protocol.

4. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three (3) years the application form referred to in Article 20(2) of this Protocol.

5. The customs authorities of the importing country shall keep for at least three (3) years the movement certificates EUR.1 and the origin declarations submitted to them.

Article 33

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not ipso facto render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.

2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

Article 34

Amounts expressed in Euro

1. For the application of the provisions of Article 24(1)(b) and Article 29(3) of this Protocol in cases where products are invoiced in a currency other than the euro, amounts in the national currencies of the SADC EPA States or of the Member States of the EU equivalent to the amounts expressed in Euro shall be fixed annually by each of the countries concerned.

2. A consignment shall benefit from the provisions of Article 24(1)(b) or Article 29(3) of this Protocol by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.

3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in Euro as at the first working day of October. The amounts shall be communicated to the European Commission by 15 October and shall apply from 1 January the following year. The European Commission shall notify all countries concerned of the relevant amounts.

4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in Euro. The rounded–off amount may not differ from the amount resulting from the conversion by more than 5 per cent. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding–off, results in an increase of less than 15 per cent in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in Euro shall be reviewed by the Committee at the request of the EU or of the SADC EPA States. When carrying out this review, the Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in Euro.

TITLE V

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

Article 35

Administrative conditions for products to benefit from this Agreement

1. Products originating within the meaning of this Protocol in a SADC EPA State or in the EU shall benefit, at the time of the customs import declaration, from the preferences resulting from the Agreement only on condition that they were exported on or after the date on which the exporting country complies with the provisions laid down in paragraph 2.

2. The SADC EPA States and the EU shall undertake to put in place:

(a) the necessary national and regional arrangements required for the implementation and enforcement of the rules and procedures laid down in this Protocol, including where appropriate the arrangements necessary for the application of Articles 3, 4 and 6 of this Protocol;

(b) the administrative structures and systems necessary for an appropriate management and control of the origin of products and compliance with the other conditions laid down in this Protocol.

They shall make the notifications referred to in Article 36 of this Protocol.

Article 36

Notification of customs authorities

1. The SADC EPA States and the EU shall provide each other through the European Commission, with the addresses of the customs authorities responsible for issuing and verifying movement certificates EUR.1 and origin declarations or supplier's declarations, and with specimen impressions of the stamps used in their customs offices for the issue of these certificates. Movement certificates EUR.1 and origin declarations or supplier's declarations shall be accepted for the purpose of applying preferential treatment from the date the information is received by the European Commission, the SACU Secretariat and the Ministry of Industry and Trade of Mozambique.

2. The SADC EPA States and the EU shall inform each other immediately whenever there are any changes to the information referred to in paragraph 1.

3. The authorities referred to in paragraph 1 shall act under the authority of the government of the country concerned. The authorities in charge of control and verification shall be part of the governmental authorities of the country concerned.

Article 37

Mutual assistance

1. In order to ensure the proper application of this Protocol, the EU and the SADC EPA States shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1, the origin declarations or the supplier's declarations and the correctness of the information given in these documents.

2. The authorities consulted shall furnish the relevant information concerning the conditions under which the product has been made, indicating especially the conditions in which the rules of origin have been respected in the various SADC EPA States, in the EU and the other countries referred to in Articles 4 and 6 of this Protocol concerned.

Article 38

Verification of proof of origin

1. Subsequent verifications of proof of origin shall be carried out based on risk analysis and at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.

2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the origin declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the request for verification. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.

3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.

4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in a SADC EPA State, in the EU or in one of the other countries referred to in Articles 4 and 6 of this Protocol and fulfil the other requirements of this Protocol.

6. If in cases of reasonable doubt there is no reply within ten (10) months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

7. Where the verification procedure or any other available information appears to indicate that the provisions of this Protocol are being contravened, the exporting country on its own initiative or at the request of the importing country shall carry out appropriate enquiries or arrange for such enquiries to be carried out with due urgency to identify and prevent such contraventions and for this purpose the exporting country concerned may invite the participation of the importing country in these verifications.

Article 39

Verification of suppliers' declarations

1. Verification of suppliers' declarations shall be carried out based on risk analysis and at random or whenever the customs authorities of the country where such declarations have been taken into account to issue a movement certificate EUR.1 or to make out an origin declaration, have reasonable doubts as to the authenticity of the document or the correctness of the information given in this document.

2. The customs authorities to which a supplier's declaration is submitted may request the customs authorities of the State where the declaration was made to issue an information certificate, a specimen of which appears in Annex VI. Alternatively, the customs authorities to whom a supplier's declaration is submitted may request the exporter to produce an information certificate issued by the customs authorities of the State where the declaration was made. A copy of the information certificate shall be preserved by the office which has issued it for at least three (3) years.

3. The customs authorities requesting the verification shall be informed of the results thereof as soon as possible. The results must indicate clearly whether the information given in the supplier's declaration is correct and make it possible for them to determine whether and to what extent this supplier's declaration could be taken into account for issuing a movement certificate EUR.1 or for making out an origin declaration.

4. The verification shall be carried out by the customs authorities of the country where the supplier's declaration was made out. For this purpose, they shall have the right to call for any evidence or to carry out any inspection of the supplier's account or any other check which they consider appropriate in order to verify the correctness of any supplier's declaration.

5. Any movement certificate EUR.1 or origin declaration issued or made out on the basis of an incorrect supplier's declaration shall be considered null and void.

Article 40

Dispute settlement

1. Where disputes arise in relation to the verification procedures of Articles 38 and 39 of this Protocol which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Committee.

2. In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall take place under the legislation of that country.

Article 41

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

Article 42

Free zones

1. The SADC EPA States and the EU shall take all necessary steps to ensure that products traded under cover of a proof of origin or a supplier's declaration and which in the course of transport use a free zone situated in their territory, are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.

2. By means of an exemption to the provisions contained in paragraph 1, when products originating in a SADC EPA State or in the EU are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request, if the treatment or processing undergone complies with the provisions of this Protocol.

Article 43

Derogations

1. Derogations from this Protocol may be adopted by the Committee, where the development of existing industries or the creation of new industries in the SADC EPA States justifies them.

1.1 The SADC EPA State or States concerned shall, either before or when submitting the matter to the Committee, notify the EU of its request for a derogation together with the reasons for the request in accordance with paragraph 2.

1.2 The EU shall respond positively to all the SADC EPA States' requests which are duly justified in conformity with this Article and which cannot cause serious injury to an established EU industry.

2. In order to facilitate the examination by the Committee of requests for derogation, the SADC EPA State or States making the request shall, by means of the form given in Annex VII, furnish in support of its request the fullest possible information covering in particular the points listed below:

(a) description of the finished product;

(b) nature and quantity of materials originating in a third country;

(c) nature and quantity of materials originating in the SADC EPA States or the countries or territories referred to in Articles 4 and 6 of this Protocol or the materials which have been processed there;

(d) manufacturing processes;

(e) value added;

(f) number of employees in the enterprise concerned;

(g) anticipated volume of exports to the EU;

(h) other possible sources of supply for raw materials;

(i) reasons for the duration requested in the light of efforts made to find new sources of supply;

(j) other observations.

The same rules shall apply to any requests for extension. The Committee may modify the form.

3. The examination of requests shall in particular take into account:

(a) the level of development or the geographical situation of the SADC EPA State or States concerned;

(b) cases where the application of the existing rules of origin would significantly affect the ability of an existing industry in a SADC EPA State to continue its exports to the EU, with particular reference to cases where this could lead to cessation of its activities;

(c) specific cases where it can be clearly demonstrated that significant investment in an industry could be deterred by the rules of origin and where a derogation favouring the realisation of the investment program would enable these rules to be satisfied by stages.

4. In every case an examination shall be made to ascertain whether the rules relating to cumulation of origin do not provide a solution to the problem.

5. In addition, when a request for derogation concerns a least–developed SADC EPA State, its examination shall be carried out with a favourable bias having particular regard to:

(a) the economic and social impact of the decision to be taken especially in respect of employment;

(b) the need to apply the derogation for a period taking into account the particular situation of the SADC EPA State concerned and its difficulties.

6. In the examination of requests, special account shall be taken, case by case, of the possibility of conferring originating status on products which include in their composition materials originating in LDCs or developing countries with which one or more SADC EPA States have special relations, provided that satisfactory administrative cooperation can be established.

7. Without prejudice to paragraphs 1 to 6, the derogation shall be granted where the value added to the non–originating products used in the SADC EPA State concerned is at least 45 per cent of the value of the finished product, provided that the derogation is not such as to cause serious injury to an economic sector of the EU or of one or more Member States.

8. The Committee shall take steps necessary to ensure that a decision is reached as soon as possible and in any case not later than seventy five (75) working days after the request is received by the EU Co–chairman of the Committee. If the EU does not inform the SADC EPA States of its position on the request within this period, the request shall be deemed to have been accepted.

9. (a) The derogation shall be valid for a period, generally of five (5) years, to be determined by the Committee.

(b) The derogation decision may provide for renewals without a new decision of the Committee being necessary, provided that the SADC EPA State or States concerned submit, three (3) months before the end of each period, proof that they are still unable to meet the conditions of this Protocol, which have been derogated from. If any objection is made to the extension, the Committee shall examine it as soon as possible and decide whether to prolong the derogation. The Committee shall proceed as provided for in paragraph 8. All necessary measures shall be taken to avoid interruptions in the application of the derogation.

(c) In the periods referred to in subparagraphs (a) and (b), the Committee may review the terms for implementing the derogation should a significant change be found to have taken place in the substantive factors governing the decision to grant the derogation. On conclusion of its review the Committee may decide to amend the terms of its decision as regards the scope of derogation or any other condition previously laid down.

10. Notwithstanding paragraphs 1 to 9, an automatic derogation concerning prepared or preserved Albacore tuna (*Thunnus alalunga*) of HS Heading 1604, manufactured from non–originating Albacore tuna of HS Headings 0302 or 0303, shall be granted to Namibia from the date the Agreement takes effect between Namibia and the EU pursuant to Article 113 of this Agreement within an annual quota of 800 metric tons.

11. Notwithstanding paragraphs 1 to 9, an automatic derogation to in Article 7(2)(c)of this Protocol shall be granted to Mozambique. This derogation shall apply for a duration of five (5) years from the entry into force of this Agreement to shrimps, prawns and lobsters of HS Headings 0306 and 1605 caught in the Exclusive Economic Zone of Mozambique and landed and processed in Mozambique.

TITLE VI

CEUTA AND MELILLA

Article 44

Special conditions

1. The term 'EU' used in this Protocol does not cover Ceuta and Melilla. The term 'products originating in the EU' does not cover products originating in Ceuta and Melilla.

2. The provisions of this Protocol shall apply mutatis mutandis in determining whether products may be deemed as originating in a SADC EPA State when imported into Ceuta and Melilla.

3. Where products wholly obtained in Ceuta, Melilla or in the EU undergo working and processing in a SADC EPA State, they shall be considered as having been wholly obtained in the SADC EPA States.

4. Working or processing carried out in Ceuta, Melilla or in the EU shall be considered as having been carried out in a SADC EPA State, when materials undergo further working or processing in a SADC EPA State.

5. For the purpose of implementing paragraphs 3 and 4, the insufficient operations listed in Article 9 of this Protocol shall not be considered as working or processing.

6. Ceuta and Melilla shall be considered as a single territory.

TITLE VII

FINAL PROVISIONS

Article 45

Revision and application of rules of origin

1. In accordance with Article 101 of this Agreement, the Joint Council shall examine annually, or whenever the SADC EPA States or the EU so request, the application of the provisions of this Protocol and their economic effects with a view to making any necessary amendments or adaptations.

2. The Joint Council shall take into account among other elements the effects on the rules of origin of technological developments.

3. The decisions taken shall be implemented as soon as possible.

4. In accordance with Article 50 of this Agreement, the Committee shall, inter alia, take decisions on derogations from this Protocol, under the conditions laid down in Article 43 of this Protocol.

Article 46

Annexes

The Annexes to this Protocol shall form an integral part thereof.

Article 47

Implementation of the Protocol

The EU and the SADC EPA States shall each take the steps necessary to implement this Protocol.

ANNEX I

Introductory notes to the list in Annex II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 8 of the Protocol.

Note 2:

1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns a rule is specified in columns 3 or 4. Where, in some cases, the entry in the first column is preceded by an 'ex', this signifies that the rules in columns 3 or 4 apply only to the part of that heading as described in column 2.

2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in columns 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.

3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in columns 3 or 4.

4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 has to be applied.

Note 3:

1. The provisions of Article 8 of this Protocol concerning products having acquired originating status which are used in the manufacture of other products apply regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the EU or in the SADC EPA States.

   Example:

   An engine of heading No 8407, for which the rule states that the value of the non–originating materials which may be incorporated may not exceed 40 per cent of the ex–works price, is made from 'other alloy steel roughly shaped by forging' of heading No ex 7224.

   If this forging has been forged in the EU from a non–originating ingot, it has already acquired originating status by virtue of the rule for heading No ex 7224 in the list. The forging can then count as originating in the value calculation for the engine regardless of whether it was produced in the same factory or in another factory in the EU. The value of the non–originating ingot is thus not taken into account when adding up the value of the non–originating materials used.

2. The rule in the list represents the minimum amount of working or processing required and the carrying out of more working or processing also confers originating status; conversely, the carrying out of less working or processing cannot confer originating status. Therefore, if a rule provides that non–originating material at a certain level of manufacture may be used, the use of such material at an earlier stage of manufacture is allowed and the use of such material at a later stage is not.

3. Without prejudice to Note 3.2 where a rule states that 'materials of any heading' may be used, materials of the same heading as the product may also be used, subject, however, to any specific limitations which may also be contained in the rule. However, the expression 'manufacture from materials of any heading, including other materials of heading No …' means that only materials classified in the same heading as the product of a different description than that of the product as given in column 2 of the list may be used.

4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that any one or more materials may be used. It does not require that all be used.

   Example:

   The rule for fabrics of heading Nos 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other or both.

5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.3 below in relation to textiles).

   Example:

   The rule for prepared foods of heading No 1904 which specifically excludes the use of non–originating cereals and their derivatives does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

   However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

   Example:

   In the case of an article of apparel of ex Chapter 62 made from non–woven materials, if the use of only non–originating yarn is allowed for this class of article, it is not possible to start from non–woven cloth — even if non–woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn — that is the fibre stage.

6. Where, in a rule in the list, two percentages are given for the maximum value of non–originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non–originating materials used may never exceed the highest of the percentages given. Furthermore, the individual percentages must not be exceeded in relation to the particular materials they apply to.

Note 4:

1. The term 'natural fibres' is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres that have been carded, combed or otherwise processed but not spun.

2. The term 'natural fibres' includes horsehair of heading No 0503, silk of heading Nos 5002 and 5003 as well as the wool fibres, fine or coarse animal hair of heading Nos 5101 to 5105, the cotton fibres of heading Nos 5201 to 5203 and the other vegetable fibres of heading Nos 5301 to 5305.

3. The terms 'textile pulp', 'chemical materials' and 'paper–making materials' are used in the list to describe the materials not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.

4. The term 'man–made staple fibres' is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of heading Nos 5501 to 5507.

Note 5:

1. Where for a given product in the list a reference is made to this note, the conditions set out in column 3 shall not be applied to any basic textile materials, used in the manufacture of this product, which, taken together, represent 10 per cent or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below).

2. However, the tolerance mentioned in Note 5.1 may only be applied to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

— silk,

— wool,

— coarse animal hair,

— fine animal hair,

— horsehair,

— cotton,

— paper–making materials and paper,

— flax,

— true hemp,

— jute and other textile bast fibres,

— sisal and other textile fibres of the genus *Agave*,

— coconut, abaca, ramie and other vegetable textile fibres,

— synthetic man–made filaments,

— artificial man–made filaments,

— current conducting filaments,

— synthetic man–made staple fibres of polypropylene,

— synthetic man–made staple fibres of polyester,

— synthetic man–made staple fibres of polyamide,

— synthetic man–made staple fibres of polyacrylonitrile,

— synthetic man–made staple fibres of polyimide,

— synthetic man–made staple fibres of polytetrafluoroethylene,

— synthetic man–made staple fibres of polyphenylene sulphide,

— synthetic man–made staple fibres of polyvinyl chloride,

— other synthetic man–made staple fibres,

— artificial man–made staple fibres of viscose,

— other artificial man–made staple fibres,

  — yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped,

  — yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped,

  — products of heading No 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,

— other products of heading No 5605.

Example:

A yarn of heading No 5205 made from cotton fibres of heading No 5203 and synthetic staple fibres of heading No 5506 is a mixed yarn. Therefore, non–originating synthetic staple fibres that do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used up to a weight of 10 per cent of the yarn.

Example:

A woollen fabric of heading No 5112 made from woollen yarn of heading No 5107 and synthetic yarn of staple fibres of heading No 5509 is a mixed fabric. Therefore synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) or woollen yarn that does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning) or a combination of the two may be used provided their total weight does not exceed 10 per cent of the weight of the fabric.

Example:

Tufted textile fabric of heading No 5802 made from cotton yarn of heading No 5205 and cotton fabric of heading No 5210 is only a mixed product if the cotton fabric is itself a mixed fabric being made from yarns classified in two separate headings or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading No 5205 and synthetic fabric of heading No 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is accordingly a mixed product.

3. In the case of products incorporating 'yarn made of polyurethane segmented with flexible segments of polyether whether or not gimped' this tolerance is 20 per cent in respect of this yarn.

4. In the case of products incorporating 'strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of an adhesive between two layers of plastic film', this tolerance is 30 per cent in respect of this strip.

Note 6:

1. In the case of those textile products, which are marked in the list by a footnote referring to this Introductory Note, textile trimmings and accessories which do not satisfy the rule set out in the list in column 3 for the made up products concerned may be used provided that their weight does not exceed 10 % of the total weight of all the textile materials incorporated.

   Textile trimmings and accessories are those classified in Chapters 50 to 63. Linings and interlinings are not to be regarded as trimmings or accessories.

2. Any non–textile trimmings and accessories or other materials used which contain textiles do not have to satisfy the conditions set out in column 3 even though they fall outside the scope of Note 3.5.

3. In accordance with Note 3.5, any non–originating non–textile trimmings and accessories or other product, which do not contain any textiles, may, anyway, be used freely where they cannot be made from the materials listed in column 3.

   For example ([1]), if a rule in the list says that for a particular textile item, such as a blouse, yarn must be used, this does not prevent the use of metal items, such as buttons, because they cannot be made from textile materials.

4. Where a percentage rule applies, the value of trimmings and accessories must be taken into account when calculating the value of the non–originating materials incorporated.

([1]) This example is given for the purpose of explanation only. It is not legally binding.

Note 7:

1. For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the 'specific processes' are the following:

   (a) vacuum distillation;

   (b) redistillation by a very thorough fractionation process;

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerisation;

   (h) alkylation;

   (i) isomerisation.

2. For the purposes of heading Nos 2710, 2711 and 2712, the 'specific processes' are the following:

   (b) redistillation by a very thorough fractionation process;

   (c) cracking;

   (d) reforming;

   (e) extraction by means of selective solvents;

   (f) the process comprising all the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally active earth, activated earth, activated charcoal or bauxite;

   (g) polymerisation;

   (h) alkylation;

   (i) isomerisation;

   (j) in respect of heavy oils falling within heading No ex 2710 only, desulphurization with hydrogen resulting in a reduction of at least 85 per cent of the sulphur content of the products processed (ASTM D 1266–59 T method);

   (k) in respect of products falling within heading No 2710 only, deparaffining by a process other than filtering;

   (l) in respect of heavy oils falling within heading No ex 2710 only, treatment with hydrogen at a pressure of more than 20 bar and a temperature of more than 250 °C with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment with hydrogen of lubricating oils of heading No ex 2710 (e.g. hydrofinishing or decolourisation) in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;

(m) in respect of fuel oils falling within heading No ex 2710 only, atmospheric distillation, on condition that less than 30 per cent of these products distils, by volume, including losses, at 300 °C by the ASTM D 86 method;

(n) in respect of heavy oils other than gas oils and fuel oils falling within heading No ex 2710 only, treatment by means of a high–frequency electrical brush–discharge.

For the purposes of heading Nos ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations such as cleaning, decanting, desalting, water separation, filtering, colouring, marking, obtaining a sulphur content as a result of mixing products with different sulphur contents, any combination of these operations or like operations do not confer origin.

(c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the Requested Authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the Requested Authority shall consult with the Applicant Authority to determine if assistance can be given subject to such terms or conditions as the Requested Authority may require.

3. Where the Applicant Authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the Requested Authority to decide how to respond to such a request.

4. For the cases referred to in paragraphs 1 and 2, the decision of the Requested Authority and the reasons thereof, must be communicated to the Applicant Authority without delay.

Article 10

Information exchange and confidentiality

1. Any information communicated in any form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party that received it and the corresponding provisions applying to the EU authorities.

2. Personal data may be exchanged only where the Party which may receive them agrees to ensure an adequate level of protection of such data. To that end, the Parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the European Union.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

Article 11

Experts and witnesses

An official of a Requested Authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

Article 12

Assistance expenses

The Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

Article 13

Implementation

1. The implementation of this Protocol shall be entrusted, on the one hand, to the customs authorities of the SADC EPA States and, on the other hand, to the competent services of the European Commission and the customs authorities of the Member States of the European Union as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection.

2. The Parties shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

Article 14

Amendments

The Parties may recommend to the Trade and Development Committee amendments which they consider should be made to this Protocol.

Article 15

Final Provisions

1. This Protocol shall complement and not impede application of any agreements on mutual administrative assistance which have been concluded or may be concluded between the Parties, nor shall it preclude more extensive mutual assistance granted under such agreements.

2. The provisions of this Protocol shall not affect the obligations of the Parties under any other international agreement or convention.

3. The provisions of this Protocol shall not affect the EU provisions governing the communication between the competent services of the European Commission and the customs authorities of the Member States of the European Union of any information obtained under this Protocol which could be of interest to the EU.

4. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States of the European Union and any SADC EPA State in so far as the provisions of the latter are incompatible with those of this Protocol.

5. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Special Committee on Customs and Trade Facilitation set up under Article 50 of this Agreement.

PROTOCOL 3

Geographical indications and trade in wines and spirits

RECALLING the Agreement between the European Community and the Republic of South Africa on trade in wine signed at Paarl on 28 January 2002 and the Agreement between the European Community and the Republic of South Africa on trade in spirits signed at Paarl on 28 January 2002;

BEING PARTY TO the Agreement on Trade, Development and Cooperation Between the European Community and its Member States, of the one part, and the Republic of South Africa, of the other part signed in Pretoria on 11 October 1999, the Agreement in the Form of an Exchange of Letters providing for the provisional application of the Agreement between the European Community and the Republic of South Africa on trade in wine as from 28 January 2002, and the Agreement in the Form of an Exchange of Letters providing for the Provisional Application of the Agreement Between the European Community and the Republic of South Africa on Trade in Spirits as from 28 January 2002;

DESIRING to promote the development of GIs defined as indications which identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin, within the meaning of Article 22(1) of the TRIPs Agreement;

ACKNOWLEDGING the importance to their economies of the beverages sector and the need to facilitate trade in wine products and spirits between them,

Article 1

Application of the Protocol

1. The provisions of this Protocol apply to South Africa and to the EU ('the Parties').

2. Any other SADC EPA State may adhere to this Protocol in relation only to GIs by lodging an application with the Special Committee on GIs and trade in wines and spirits referred to in Article 13 of this Protocol ('the Special Committee').

3. This Committee may submit proposals for amendments to the Joint Council for consideration and approval of the accession of the SADC EPA State concerned to this Protocol pursuant to Article 117 of this Agreement.

PART 1

Geographical indications

Article 2

Scope

1. This Part applies to the recognition and protection of GIs designating products falling under the categories of products indicated in the section headings of Annex I to this Protocol and originating in the territories of the Parties.

2. The provisions of this Part shall complement and specify the rights and obligations of the Parties under the TRIPS Agreement and other existing multilateral agreements to which the Parties are party, and therefore, no provision of this Part will contradict or be detrimental to the provisions of such multilateral agreement.

3. For the purposes of this Part, the definition of 'geographical indication' is compatible with that laid down in Article 22.1 of the TRIPS Agreement.

Article 3

Protection of established geographical indications

1. The EU shall protect the GIs of South Africa listed in Annex I to this Protocol according to the level of protection laid down in this Protocol.

2. South Africa shall protect the GIs of the EU listed in Annex I to this Protocol according to the level of protection laid down in this Protocol.

3. When all the GIs respectively of the EU or of South Africa listed in Annex I to this Protocol and identified therein as GIs for which the priority date is indicated as 'date of entry into force' have been protected according to paragraphs 1 or 2, each Party shall notify the other that the protection has been applied.

Article 4

Right of use of geographical indications

1. A geographical indication protected under this Part may be used by any operator marketing the product concerned conforming to the corresponding product specification.

2. Once a geographical indication is protected under this Part, the use of such protected name shall not be subject to any registration of users, or further charges.

Article 5

Scope of protection

1. GIs referred to in Article 3 and listed in Annex I to this Protocol as well as those added pursuant to Article 7 of this Protocol shall be protected against:

(a) any direct or indirect commercial use of a protected name:

— for comparable products not compliant with the product specification of the protected name, or

— in so far as such use exploits the reputation of a geographical indication;

(b) any misuse, imitation or evocation including:

— use in connection with an indication of the true origin of the product in question;

— use in translation, transcription or transliteration;

— use together with words such as 'kind', 'type', 'style', 'imitation', 'method', or similar words or expressions;

(c) any other false or misleading indication as to the provenance, origin, nature or essential qualities of a like product, on the inner or outer packaging, advertising material or documents relating to that product, and the packing of the product in a container liable to convey a false impression as to its origin;

(d) any other practice liable to mislead the consumer as to the true origin of a like product.

2. Protected GIs shall not be deemed to become generic in the territories of the Parties.

3. This Protocol shall in no way prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead consumers.

4. Where South Africa or the EU, in the context of negotiations with a third party, proposes to protect a geographical indication of the third party, and the name is wholly or partially homonymous with a geographical indication of the other Party, the latter shall be informed and be given the opportunity to comment before the name becomes protected.

5. Nothing in this Part shall oblige South Africa or the EU to protect a geographical indication which is not or ceases to be protected in its country of origin. South Africa and the EU shall notify each other if a geographical indication ceases to be protected in its country of origin.

Article 6

Relation between geographical indications and trade marks

1. The Parties shall refuse to register or shall invalidate a trade mark that corresponds to any of the situations referred to in Article 5(1) of this Protocol and which relates to same type of product, provided an application to register the trade mark is submitted after the date of application for protection of the geographical indication in the territory concerned. In the case of invalidation, a competent authority of a Party may provide that invalidation shall only be effected pursuant to an application duly lodged by an interested party and brought in a manner prescribed in applicable legislation.

2. For the GIs listed in Annex I to this Protocol at the date of entry into force of this Protocol, the date of application for protection referred to in paragraph 1 shall be the priority date indicated in Annex I of this Protocol, without prejudice to the continued validity, in respect of a trade mark that was earlier in time than the said date, of priority rights that applied in the territory of a Party immediately before the date of entry into force of this Protocol.

3. For GIs referred to in Article 7 of this Protocol, the date of application for protection referred to in paragraph 1 shall be the date of a Party's receipt of a request by the other Party to protect a geographical indication, provided the said geographical indication is subsequently protected by the receiving Party.

4. The protection of a geographical indication under Article 5 of this Protocol is without prejudice to the continued use of a trade mark which has been applied for, registered or established by use in good faith, in the territory of a Party before the date of the application for protection of the geographical indication provided that no grounds for the trade mark's invalidity or revocation exist in the legislation of the Party concerned. The date of application for protection of the geographical indication is determined in accordance with the provisions of paragraphs 2 and 3.

5. In respect of the GIs listed in Annex I to this Protocol and identified therein as GIs for which the priority date is indicated as 'date of entry into force', a trade mark applied for between the date of publication for comments or opposition of the said GIs and the date of entry into force of this Protocol that corresponds to any of the situations referred to in Article 5(1) of this Protocol shall be presumed to have been applied for in bad faith.

Article 7

Addition of Geographical Indications for protection

1. South Africa and the EU may add GIs to the lists in Annex I to this Protocol in accordance with the procedures set out in Article 13 of this Protocol.

2. A name may not be added to the list in Annex I to this Protocol where, in the territory of a Party, it conflicts with the name of a plant variety, including a grape variety, or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product, or if it wholly comprises a generic term for similar product.

3. If a geographical indication referred to in Articles 3 or 7(1) of this Protocol is wholly or partially homonymous with a geographical indication protected or proposed for protection in the territory of the Party concerned:

(a) protection shall be granted to each indication provided that it has been used in good faith and with due regard for local and traditional usage and the actual risk of confusion;

(b) without prejudice to Article 23 of the TRIPS Agreement, South Africa and the EU shall mutually decide the practical conditions of usage under which the wholly or partially homonymous GIs will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled;

(c) a wholly or partially homonymous name which misleads the consumer into believing that products come from another territory shall not be protected even if the name is accurate as far as the actual territory, region or place of origin of the product in question is concerned.

4. South Africa and the EU shall have no obligation to protect a geographical indication where, in the light of a reputed or well–known trade mark, protection is liable to mislead consumers as to the true identity of the product concerned.

5. Without prejudice to paragraph 4, the Parties shall protect a geographical indication also where a prior trade mark in the sense of Article 6(4) of this Protocol exists.

6. With a view to the development of GIs in South Africa, South Africa may present up to thirty (30) names with priority for protection pursuant to Article 13 of this Protocol. The EU shall submit these applications to its internal procedures without delay.

Article 8

Enforcement of protection

1. The Parties shall enforce the protection provided for in Articles 3 to 7 of this Protocol by appropriate administrative action by public authorities and available juridical instances established under each Party's domestic or regional legislation. They shall also enforce such protection at the request of an interested party.

2. In so far as domestic and regional laws provide for enforcement mechanisms that are equivalent to those in application for comparable labelling, production, and intellectual property enforcement purposes, they are considered to meet the requirements of paragraph 1.

Article 9

Cooperation in management of geographical indications

1. The EU and South Africa shall notify each other, and may make publicly available, the product specifications or summaries thereof and the contact points for control provisions corresponding to GIs of the other Party protected pursuant to this Part.

2. GIs protected under this Part may only be cancelled by the Party in the territory of which the product originates.

3. Any matter arising from a product specification of a protected name shall be dealt with in the Special Committee. A product specification referred to in this Part shall be the one approved, including any amendments also approved, by the authorities of the Party in the territory of which the product originates.

4. The provisions of this Part are without prejudice to the right to seek recognition and protection of a geographical indication under the relevant legislation of South Africa or the EU.

PART 2

Trade in wine products and spirits

Article 10

Scope and coverage

This Part applies to wine products and spirits falling under headings 2204 and 2208 of the International Convention on the Harmonised Commodity, Description and Coding System, hereinafter referred to as the 'Harmonised System', signed at Brussels on 14 June 1983.

Article 11

Winemaking practices

1. The EU shall authorise the importation and marketing in its territory for human consumption of wine products originating in South Africa and produced in accordance with:

(a) product definitions authorised in South Africa by laws and regulations referred to in Section A1(a) of Annex II to this Protocol,

(b) oenological practices and restrictions authorised in South Africa under laws and regulations referred to in Section A1(b) of Annex II to this Protocol or otherwise approved for use in wines for export by the competent authority, in so far as they are recommended and published by the International Organisation of the Vine and Wine, hereafter referred to as the 'OIV', and

(c) additional oenological practices and restrictions jointly accepted by the Parties under the conditions provided for in Section A1(c) of Annex II to this Protocol.

2. South Africa shall authorise the importation and marketing in its territory for human consumption of wine products originating in the EU and produced in accordance with:

(a) product definitions authorised in the EU by laws and regulations referred to in Section B1(a) of Annex II to this Protocol,

(b) oenological practices and restrictions authorised in the European Union by laws and regulations referred to in Section B1(b) of Annex II to this Protocol, in so far as they are recommended and published by the OIV, and

(c) additional oenological practices and restrictions jointly accepted by the Parties under the conditions provided for in Section B1(c) of Annex II to this Protocol.

3. The Parties may jointly decide, by way of amendment to Annex II to this Protocol, to add, delete or modify references to product definitions, and oenological practices and restrictions. Such decisions shall be adopted by the Special Committee according to its procedures.

4. In respect of oenological practices, the Parties reconfirm their WTO undertakings in relation to national treatment and the most favoured nation principle, having regard in particular to their undertakings in Article 40 of this Agreement.

Article 12

Certification of wines and spirits

1. For wine products and spirit drinks imported from South Africa and placed on the market in the EU, the documentation and certification that may be required by the European Union shall be limited to that set out in Section A2 of Annex II to this Protocol.

2. For wine products and spirit drinks imported from the EU and placed on the market in South Africa, the documentation and certification that may be required by South Africa shall be limited to that set out in Section B2 of Annex II to this Protocol.

PART 3

General provisions

Article 13

Special Committee

1. The Parties hereby establish a Special Committee on geographical indications and trade in wines and spirits with the purpose of monitoring the development of this Protocol, intensifying their cooperation, exchanging information, notably product specifications or summaries thereof, and improving their dialogue on GIs.

2. The Parties shall, through the Special Committee, maintain contact on all matters relating to the implementation and the functioning of this Protocol. In particular, the Parties shall ensure timely notification to each other of amendments to laws and regulations on matters covered by this Protocol that have an impact on products traded between them.

3. The Special Committee shall see to the proper functioning of this Protocol and may make recommendations and adopt decisions by consensus.

4. By derogation from Article 117 of this Agreement, the Special Committee may decide to modify the Annexes of this Protocol, including matters of cooperation under Article 14(1) of this Protocol.

5. The Special Committee shall determine its own rules of procedure.

Article 14

Cooperation and dispute avoidance

1. The Parties shall cooperate on matters related to GIs and trade in wines and spirits, and in particular:

(a) product definitions, certification and labelling of wines;

Subject to Article 113(5) of this Agreement, and pursuant to Article 113(6) of this Agreement, the agricultural market access concessions referred to in Article 24(2) and Article 25(1) of this Agreement that are denoted by an asterisk (*) in the tariff schedules as set out in ANNEXES I and II of this Agreement, shall only be granted to the Party that lodges the notification pursuant to Article 3(3) of this Protocol from the first day of the month following receipt by the other Party of such notification.

Article 17

Relation to other agreements

1. The Agreements of 2002 in the Form of Exchanges of Letters Concerning the Provisional Application of Certain Agreements between the European Community and South Africa on Trade in Wine and on Trade in Spirits are hereby terminated.

2. In respect of the attachment to the exchange of letters in Annex X to the TDCA:

(a) the provisions of this Protocol relating to the protection of the names Port and Sherry in this Protocol are without prejudice to the application of paragraphs1 to 4 inclusive of that Attachment;

(b) in paragraph 6 of that Attachment, the sentence 'Such assistance will commence at the entry into force of the Wines and Spirits Agreement' is replaced by 'Such assistance will commence at the date of entry into force of Protocol 3 on geographical indications and trade in wines and spirits to the Economic Partnership Agreement between the European Union and its Member States, of the one part, and the SADC EPA States, of the other part'.

1. The Parties shall cooperate in the provision of information about protected GIs. Documentation may be requested in order to allow a Party to complete its obligations of due diligence or for information purposes only. Subject to paragraphs 2 and 3, the obligation to supply summary documentation shall not affect the protection of a geographical indication.

2. The documentation submitted shall show that the names meet the criteria to be a geographical indication within the meaning of the third recital of this Protocol, namely that the indication identifies a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin, within the meaning of Article 22(1) of the TRIPs Agreement, and that the name is protected in its country of origin.

3. In view of the need to complete the documentation necessary for a Party's due diligence requirements to be discharged, the Parties shall cooperate and assist each other in the production, submission and acceptance of the documentation. 2. Carboxymethylcellulose (CMC)

3. Concentrated grape must, rectified concentrated grape must and sucrose.

Concentrated grape must, rectified concentrated grape must and sucrose, may be used for enrichment and sweetening under specific and limited conditions (Annex VIII, Part I of Regulation (EU) No 1308/2013), subject to the exclusion of use of these products in a reconstituted form in wines covered by this Protocol.

4. Addition of water

The addition of water in winemaking is excluded, except where required on account of a specific technical necessity.

5. Fresh lees

6. Tannin

Tannins may be used on a temporary basis (point 25 of Annex I A of Regulation (EC) No 606/2009), pending a determination by the OIV of its admissibility in wine making as antioxidant and stabilizer.

Section B.2. Documentation and certification referred to in Article 12(2) of this Protocol

Certification documents and analysis report

(a) South Africa shall authorise the importation in its territory of wines in accordance with the rules governing the import certification documents and analysis reports as provided for according to the terms of the Appendix hereto.

(b) South Africa agrees not to submit the import of wine originating in the territory of the European Union to more restrictive import certification requirements than any of those laid down in this Protocol.

(c) South Africa shall authorise the importation in its territory of spirits in accordance with the rules governing the import certification document and analysis reports as provided for in its internal legislation.

Section C

Specific rules on importation, labelling and marketing applicable to products of either Party imported into the other Party

1. Retsina

Nothing in this Protocol shall prevent the marketing in South Africa of 'Retsina' originating in Greece and produced in accordance with European Union rules. It shall be regarded, for the purpose of importing and marketing in South Africa, as 'flavoured grape liquor' in terms of South African legislation.

2. Gold Flakes

Nothing in this Protocol shall prevent the marketing in the European Union of alcoholic beverages (whether or not effervescent) derived from grapes to which food grade gold flakes have been added, but such alcoholic beverage cannot be labelled or otherwise marketed as any type of wine.

3. Vine varieties

Vine varieties that may be used in wines imported and marketed in the territory of the Parties are varieties of plants of *Vitis vinifera* and hybrids of *Vitis vinifera* without prejudice to any more restrictive legislation which a Party may have in respect of wine produced on its territory. The import and marketing of wine obtained from the varieties Clinton, Herbemont, Isabelle, Jacquez, Noah and Othello shall be prohibited.

4. Environmentally harmonious production methods on labels

The Parties agree to allow terms that indicate environmentally harmonious production methods on labels for wine if the use of those terms is regulated in the country of origin. Labels referring to organic production are not covered by this paragraph.

5. Names of States

The following names are protected with regard to wines and spirits:

(a) references to the name of a Member State of the European Union for wines and spirits originating in the Member State concerned,

(b) the name South Africa or other names used to indicate South Africa for wines and spirits originating therein.

6. Mutual assistance between enforcement authorities

Each Party shall designate the bodies and authorities to be responsible for the application of this Protocol. Where a Party designates more than one competent body, it shall ensure the coordination of the work of those bodies. For this purpose, a single liaison authority shall be designated.

The Parties shall inform one another of the names and addresses of the bodies and authorities referred to in the first paragraph not later than six (6) months after the date of entry into force of this Protocol. There shall be close and direct cooperation between those bodies.

The bodies and authorities referred to in the first paragraph shall seek ways of improving assistance to each other in the application of this Protocol in order to combat fraudulent practices.

7. Safeguard provisions

The Parties reserve the right to introduce temporary additional import certification requirements for wines and spirits imported from the other Party in response to legitimate public policy concerns, such as health or consumer protection or in order to act against fraud. In this case, the other Party shall be given adequate information in sufficient time to permit the fulfilment of the additional requirements.

The Parties agree that such requirements shall not extend beyond the period of time necessary to respond to the particular public policy concern in response to which they were introduced.

8. Labelling terms and traditional terms

The Parties recognise the importance attached to the use of labelling terms and traditional terms to describe wines placed on their respective markets. The Parties agree to continue to work together on this issue pursuant to Article 14 of this Protocol. The Parties agree to examine the objectives, principles and application to certain specific cases, with a view to reaching agreement within two (2) years of entry into force that shall be incorporated into this Protocol. Pending such agreement, the use of these terms on product imported from the other Party shall be subject to the rules, procedures and practices of the importing Party whether or not these terms constitute classes of wine or terms provided for in the legislation of the exporting Party referred to under Article 11 of this Protocol.

Within the European Union, with regard to the provisions of Regulation (EC) No 261/2006, the traditional terms 'Ruby', 'Tawny' and 'Vintage' therein specified may be used in labelling of fortified wines concerned, in line with their definition as laid down in South African law, in combination with any of the GIs listed in Annex I Section A.3 for which the fortified wine qualifies and for which the geographical indication is located in the Eastern, Northern or Western Cape Provinces. That fortified wine shall be labelled with the relevant geographical indication and with the traditional term hyphenated or otherwise in visual combination with the term 'Cape'.

Appendix to Annex II

Import certification and analysis documentation

1. Pursuant to Sections A.2 (a) and B.2 (a) of this Annex, the evidence that the requirements for the importation of wine in the territory of a Party have been fulfilled shall be supplied to the competent authorities of the importing Party by the production:

   (a) of a certificate issued by a mutually recognised official authority of the country of origin; and

   (b) if the wine is intended for direct human consumption, of an analysis report drawn up by a laboratory officially recognised by the country of origin. The analysis report shall include the following information:

   total alcoholic strength by volume

   actual alcoholic strength by volume

   total dry extract

   total acidity, expressed as tartaric acid

   volatile acidity, expressed as acetic acid

   citric acidity

   residual sugar

   total sulphur dioxide.

2. The Parties shall mutually determine the specific details of these rules referred to in paragraph 1, in particular the forms to be used and the information to be given ([1]).

3. In applying paragraph 6 of Section C of Annex II, the Parties agree that the methods of analysis recognised as reference methods by the OIV and published by that Organization or, where an appropriate method does not appear in this publication, a method of analysis complying with the standards recommended by the International Organisation for Standardisation (ISO), shall prevail as reference methods for the determination of the analytical composition of the wine in the context of control operations.

([1]) To be done through a decision of the Special Committee established under Article 13 of this Protocol.

DECLARATIONS

DECLARATION BY NAMIBIA ON THE ORIGIN OF FISHERIES PRODUCTS

Namibia reaffirms her point of view expressed throughout the EPA negotiations on the rules of origin in respect of fishery products and consequently maintains that following the exercise of her sovereign rights over fishery resources in the waters within her national jurisdiction, including the Exclusive Economic Zone, as defined in the United Nations Convention on the Law of the Sea, all catches effected in those waters and obligatory landed in ports of Namibia for processing shall enjoy originating status.

DECLARATION BY THE EU RELATING TO PROTOCOL 1 ON THE EXTENT OF TERRITORIAL WATERS

The EU, recalling that the relevant acknowledged principles of international law, in particular the United Nations Convention on the Law of the Sea, restrict the maximum extent of territorial waters to 12 nautical miles, declares that this limit shall be taken into account in applying the provisions of the Protocol whenever the latter refers to this concept.

DECLARATION OF THE COUNCIL REGARDING ARTICLE 74(1) OF THE ECONOMIC PARTNERSHIP AGREEMENT BETWEEN THE EUROPEAN UNION AND ITS MEMBER STATES, OF ONE PART, AND THE SADC EPA STATES, OF THE OTHER PART

The Council considers that the wording of Article 74(1) of the SADC EPA does not and cannot derogate from the division of competences between the Union and its Member States under the Treaties, including for investment.
